Cardinal Shrub

CARDINAL SHRUB

(Weigela Vaniceki)

Blooms Spring and Autumn

One of the newer shrubs. It is rapidly becoming the most widely planted shrub in America. The reason it is so popular is because it thrives in the East, the West, the North and the South, and it blooms spring, summer and fall. If planted this spring it WILL BLOOM THIS SEASON.

In May-June the bushes are simply covered from top to bottom with hundreds and hundreds of the lovely rosy red flowers. They are trumpet-shaped, 1 to 1¼ inches across. After they bloom in May-June, there are some scattering blooms throughout the season. If the sprays of flowers are cut off for bouquets, the plant will flower even more freely than if you left them on. The youngest plants in the nursery, only a few months old, bloom.

Another reason it is so popular is because it is so easy to grow, and not particular as to soil. It will thrive in full sun or part shade. Has excellent foliage and makes a shapely bush 6 feet or so tall. It is one of the best hardy new shrubs, having withstood 15 below zero without injury.

We want you to plant one because you will like it—your neighbors will like it and will want to plant one. We know it will thrill you when you see it in bloom this year.

Be a Connoisseur! Add These Unusual Shrubs

PEPPER BUSH (Summersweet)

(Clethra Alnifolia Rosea)

The Pepper Bush is a compact neat plant of many slender, upright branches rarely over four to five feet high. Each branch is topped with finger-like clusters of small deliciously scented pink flowers. To many people, the fragrance is reminiscent of pepper; hence its name. This is a very fine and useful shrub, especially for low moist places or damp woodland conditions. It grows equally well in full sun or shade. Here is the rare pink form of the much loved white Pepper Bush, giving bloom when most needed in late summer and early autumn with fine dark green foliage to boot. Leaves are shining, 2-3 in. long, toothed, and resemble those of the Alder with their seven to nine pairs of prominent veins. 18-24 in., \$1.25 each; 2 for \$2.25. 2-3 ft., \$1.50 each; 2 for \$2.75. Postpaid.

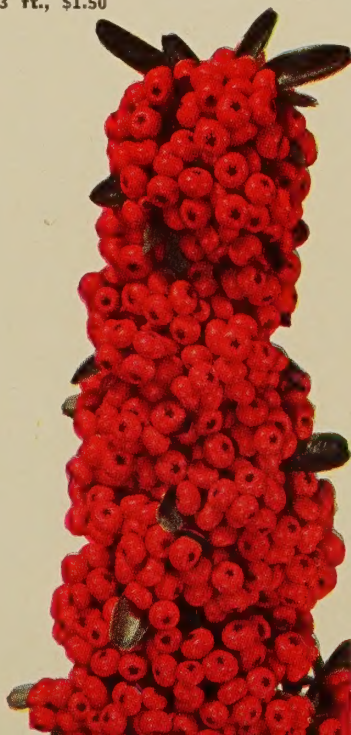

Firethorn, PYRACANTHA

Lovely Decorative Berries

(Coccinea Lalandi)

A most remarkable berried shrub that retains its foliage all winter. The attractive long trusses of pure white flowers are only a prelude to the big show. An abundance of brilliant orange-scarlet berries follow the bloom and the bush becomes a "mound of flame" with the effect lasting well into the winter. Blooms in May. Grows 4-6 feet. 2-yr., 12-15 in., \$2.25 each; 2 for \$4.35. Postpaid.

[2]

PINK CASCADE

Resembles A Large Morning Glory

A welcome feathery type of the lacy Tamarix. One of the finest of the shrubs. The foliage is silvery blue with lovely cascade of pink flowers, that appear all summer. For best results cut back to six inches at time of planting to insure satisfactory results. Select, 2-yr. plants, \$2.00 each; 2 for \$3.75. Postpaid.

Christmas Holly ILEX OPACA

By far the most famous of the Holly family, the American Holly was once commonly found in most all wooded areas of the East.

Either by cutting, burning or from an attack of bugs and disease it has all but disappeared, except for certain areas along the Eastern seaboard.

By selection and breeding, Holly experts have succeeded in propagating varieties that are hardy and comparatively free from disease and insect attacks.

We now have a quantity of this most unusual plant, which we are offering. The plants we have, have been selected for their early and heavy fruiting characteristics. They have been found hardy for several years in the Buffalo, New York area and in New England.

The trees are likely to do better where they are protected from strong winter winds and where they get some shade. A fertile, well drained soil, on the acid side, is preferred. The use of leaf mold and peat moss in planting and as a mulch is recommended. A special Holly fertilizer is listed below.

Although the tree will grow 30 to 40 ft. tall at maturity, it looks best when kept trimmed to a compact size of 4 to 8 ft.

Evergreen in its nature, with the heavy crop of attractive bright red berries during the winter, as an accent plant in strategic corners, flanking walks or front entrances, it is in a class by itself. It is invaluable for planting in areas fairly close to the house.

Because the female and male flower are produced on separate plants, at least 2 plants must be planted. Because the pollen from 1 male plant will pollinate the blossoms of from 2 to 10 female plants, we offer a combination of 2 female and 1 male plant in one package.

Special Holly Culture Booklet sent Free with each order.

All 3, 12-15 in., 3-yr. plants, only \$5.95, postpaid.

To Your Garden

FORSYTHIA, Lynwood Gold

This splendid new Forsythia originated in Ireland, and we predict it will replace, before many years, all other varieties of deep yellow color. The branches are erect and literally smothered under golden yellow flowers from top to bottom. For a magnificent show of golden yellow, there is nothing better. It is superb for cutting and flowering in the house during the winter months. It has been carefully tested for several years, and we recommend it without hesitation. Ultimate height 5 to 7 feet, depending on conditions.

	Each	2 for
18-24 in.	\$1.50	\$2.75

NEW DWARF HONEYSUCKLE

(Honeysuckle compacta nana)

Compact in its habit of growth. Grows to a maximum height of 3 to 4 ft. Produces small yellow flowers in May, beautiful red berries in fall, which last most all winter, offering excellent fruit for the birds. Doesn't resemble any other Honeysuckle. Heavily furnished with leaves of a soft grayish green color. **12-18 in., \$1.50 each; 2 for \$2.75, postpaid.**

Free! GIFTS for EARLY ORDERS

This Offer Good on Orders Received on or BEFORE MARCH 3, 1956

As an added inducement to send us your order early so we can give it our best attention, we offer the following FREE PREMIUMS:

The premiums you select MUST BE WRITTEN ON THE ORDER, or none will be sent, even if you notify us later.

RA-PID-GRO

The MIRACLE Plant Food

1 pound of Ra-Pid-Gro added to 22 gals. of water gives you a complete, quickly available, easily prepared plant food. Analysis: 23% Nitrogen, 21% Phosphate, 17% Potash.

• WHAT IS RA-PID-GRO?

Ra-Pid-Gro is a complete concentrated plant food. It is made into an immediately available, effective liquid fertilizer by simply adding water. It speeds up growth of plants now in place, and assures more successful transplanting of new plants.

• HOW IS IT USED?

Just add water at the rate of 1 lb. of Ra-Pid-Gro to 22 gallons of water. It is ready to use as soon as the Ra-Pid-Gro dissolves. Apply around each plant according to directions on the package. For a small number of plants mix at the rate of 1 teaspoonful to a quart of water.

• WHAT WILL IT DO?

Ra-Pid-Gro works almost unbelievable miracles in promoting rapid and healthy growth on all types of plants. Use it on lawns, around shade trees, evergreen shrubs, Roses, perennials, vegetables and house plants. All the vital plant food elements are present in this remarkable discovery and, since it is applied in liquid form, are readily available to the roots of the plant.

PRICES:

- 1 lb. Ra-Pid-Gro (makes 22 gals.) ... \$ 1.25
- 2 lbs. Ra-Pid-Gro (makes 44 gals.) ... 2.35
- 5 lbs. Ra-Pid-Gro (makes 110 gals.) ... 4.50
- 10 lbs. Ra-Pid-Gro (makes 220 gals.) ... 8.75
- 25 lbs. Ra-Pid-Gro (makes 550 gals.) ... 21.00

WE ARE UNITED In Our Desire To SERVE YOU BETTER —

76 Years of Experience is Your Guarantee of Quality and Satisfaction—Over One Hundred Thousand Satisfied Customers in All Parts of the Country—Five Hundred Acres of Growing Nursery Stock.

KELLY BROS. NURSERIES, INC.

Dansville, New York

Buy By Mail - SAVE UP TO 50%

WE PAY POSTAGE

Most plants listed in the catalog are delivered to your home postpaid.

Trees too large for parcel post shipment are sent by express—you pay the charges.

Where there is a mixed order of postpaid and express items, we ship the whole order express, prepaying in advance, our portion of the charges.

Our Guarantee

We positively GUARANTEE any nursery stock you buy from this catalog to grow. If any tree, bush or plant from our nursery does not grow, we will replace it ABSOLUTELY FREE the next growing season. All replacement orders we will bill you for the parcel post charges.

All we ask is that you follow instructions mailed with your order acknowledgement and give the plants good care.

Report on losses to reach us ON OR BEFORE AUGUST 1st, FOLLOWING PLANTING.

We ship only STRONG, HEALTHY STOCK OF THE BEST QUALITY. That's why we can make such an iron-clad guarantee.

HOW TO ORDER

1. Order now for shipment at planting time.
2. Unless you specify date, we will ship at the proper planting time in your section.
3. An envelope on which we pay postage is enclosed for your convenience.
4. For ordering, please use order blanks enclosed. Letters should be written separately to avoid confusion and mistakes, and to insure prompt reply.
5. Our terms are cash with order. C.O.D. orders accepted only when 25 per cent deposit accompanies the order. On C.O.D. orders the customer pays all transportation charges.

HOW TO REMIT

Send Money Order or Check with your order. You save money by sending remittance with order. The Post Office and Express Company make extra charges for C.O.D. shipments.

QUANTITY RATES

Take advantage of our lower rates for quantity purchases. For one to 6 trees remit at 6 rate; 7 to 12 trees of one sort such as Apples, varieties alike or assorted, entitles you to the 12 rate; 13 to 25 trees alike or assorted, entitles you to the 25 rate; 26 or more trees, alike or assorted, entitles you to the 50 rate. In larger quantities please ask for our Growers Price List.

PLEASE READ BEFORE Ordering Your Selections

FREE PLANTING GUIDE

With every order we will send absolutely free a book which, by word and picture, shows just how to plant a tree or shrub.

DEUTZIA, GRACILIS ROSEA

(Pink Deutzia)

The most graceful and prettiest of all the Deutzias. It is covered with a superabundance of delicate pink blossoms late in May. Does well in sun or light shade, and is excellent for edging walks or in a foreground of foundation plantings. It seldom grows over 2 to 3 ft. high, and makes a fountain-like bush, attractive both winter and summer. **12-15 in., \$1.25 each; 2 for \$2.35. 15-18 in., \$1.50 each; 2 for \$2.75, postpaid.**

THE EXOTIC BLUE MIST SHRUB

(Caryopteris)

One of the best low-growing, fall-blooming shrubs. It makes a neat, compact, rounded bush about 2 feet tall, with narrow, silvery green foliage. From August to frost, it is covered with many clusters of dainty blue flowers. The roots are hardy, but like a Peony bush you cut off, each spring, the old canes and new ones come up. You are sure to like this shrub. **\$1.25 each; 2 for \$2.25, postpaid.**

Improved Chenaulti CORALBERRY

(Indian Currant)

A 3 to 4 ft. shrub with delicate, little, pink flowers against a reddish green foliage, followed by coral-colored berries that remain most of the winter. Keep birds near, with abundance of these berries.

	Each	2 for
18-24 in.	\$1.00	\$1.80
2- 3 ft.	1.25	2.25

Postpaid

DWARF SHRUBS - Grow 1½ to 3 ft. high

EVERGREEN BITTERSWEET

(Euonymus radicans vegetus)

A wonderful berried vine. Can also be used as a shrub or colorful hedge.

Will climb brick or wood, or can be planted as a hedge. Makes an excellent shrub when pruned and does well in northern exposure. Extremely hardy.

	Each	2 for
3-yr., large	\$1.75	\$3.00
2-yr., selected	1.25	2.35

Postpaid

Pink Flowering ALMOND

A charming, old-fashioned early spring flowering shrub, growing to a height of 4 feet. Unsurpassed in beauty when completely covered with a mass of very double, vivid pink blossoms, which appear in great profusion before the leaves unfold.

	Each	2 for
18-24 in.	\$1.25	\$2.35
2- 3 ft.	1.50	2.75

Postpaid

[6]

DEUTZIA GRACILIS

A Fine Low Growing Foundation Shrub

A charming little "must" for every garden. Slender twigs covered with white flowers in May and June. Generally attains a height of 3 feet when fully matured.

	Each	2 for
12-15 in.	\$1.25	\$2.35
15-18 in.	1.50	2.75

Postpaid

KELLY'S SHRUBS Are Shipped Direct
From Our Big Nurseries At Dansville, N. Y.

CHARTREUSE SHRUB

(Ligustrum Vicari)

Adds That "Bit of Color"
to Every Planting

Good As Individual
Planting or A Colorful
Hedge

A striking shrub, growing to a height of 4-6 ft., but can be trimmed to any desired height or shape. Bright yellow foliage, making it a fine specimen or as a color accent in the shrub border. We offer especially bushy plants.

	Each	2 for
12-15 in.	\$1.00	\$1.75
15-18 in.	1.25	2.25
	Postpaid	

RED SPIREA

(Spirea Anthony Waterer)

A choice, low growing shrub, distinctive in style and form. It produces masses of showy, bright crimson flower clusters in July, and if the old blooms are cut away, it will continue to bloom until frost. Nice for specimen planting as well as in groups. Ultimate height 18 to 24 in.

	Each	2 for
15-18 in.	\$1.25	\$2.35
18-24 in.	1.50	2.75
	Postpaid	

LYTHRUM, ROBERT

A sight to behold. Graceful spikes are covered almost from the ground to their 3-4 ft. tips with deep pink flowers. Blooms all summer. Hardy—developed in Canada, and grows anywhere. Selected 2-yr. plants, 95c each; 2 for \$1.80, post-paid.

DWARF RED BARBERRY, Crimson Pygmy

New introduction from Holland. Grows 6 to 8 inches high, 15 to 24 inches across. Slow growing. Ideal for planting in front of shrub planting. Best color when grown in full sun. We deliver 2-yr. field-grown plants, 6-8 inches in diameter. \$1.50 each; 2 for \$2.75; 5 for \$6.25; 10 for \$10.00, post-paid.

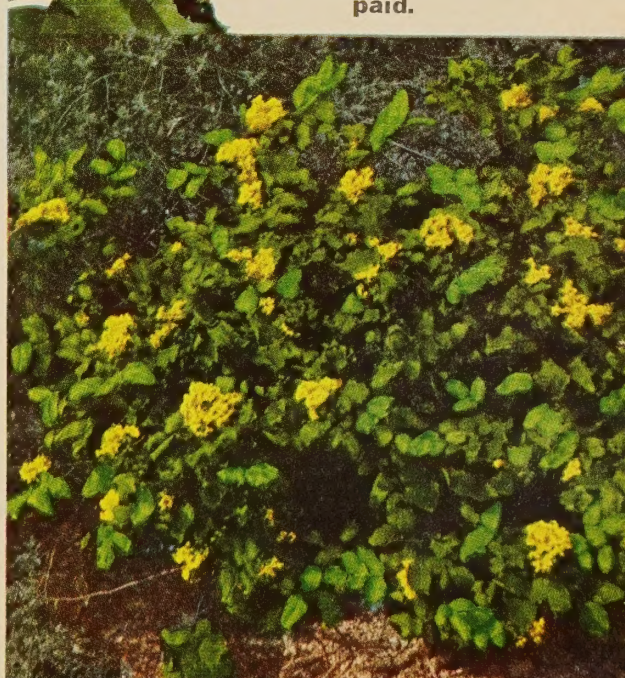

OREGON GRAPE-HOLLY

(Mahonia Aquifolium)

The thick, glossy leaves resemble Holly, but are much larger and most attractive. Mature leaves turn red in the fall. Flowers are yellow, produced in dense, spike-like clusters at the ends of the branches. Flowering in

April and May. Fruits are purple-black, ripening in Sept. Thrives in shade, easy to grow. Grows 2-3 feet tall. **12-18 inch, \$2.50 each; 2 for \$4.95, post-paid.**

BLUE HYDRANGEA

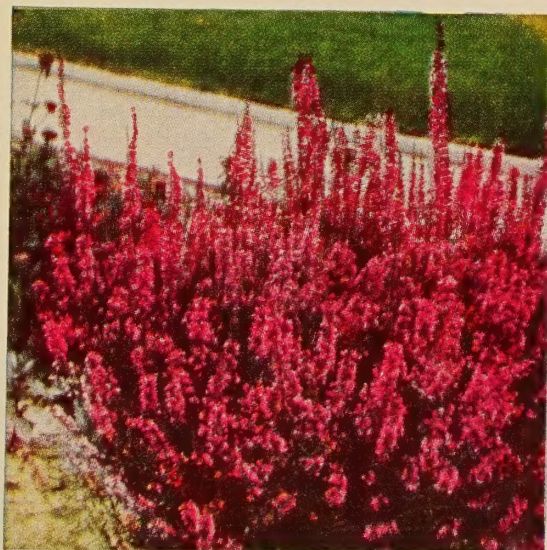

Blooms of charming blue throughout the summer. Soil should be very acid to bring out the blue color. To maintain soil acidity, mix 4 or 5 tablespoons of aluminum sulphate to a gallon of water, and apply to the soil for 2 or 3 weeks during the growing season. Grows in partial or full shade. Mound earth up around plant 10 or 12 inches for winter protection, same as for Roses. A real novelty.

	Each	2 for
2-yr.	\$1.75	\$3.00
3-yr., large	2.25	4.00

Postpaid

(Aluminum Sulphate Listed on Page 21)

THESE PLANTS ARE IDEAL FOR FOUNDATION
PLANTINGS UNDER WINDOWS AND WHERE YOU
WANT A DWARF GROWING SHRUB.

EVERBLOOMING PINK SPIREA

(*Spiraea macrothyrsa*)

The finest Spirea ever introduced. Enormous spikes of cameo-pink flowers up to 12 inches long on stems up to 4 feet long. Will bloom all summer if flowers are kept cut. Excellent foliage; no pests. Grows in any ordinary soil, and can stand a little shade.

	Each	2 for
18-24 in.	\$1.25	\$2.35
2- 3 ft.	1.50	2.75
	Postpaid	

DOUBLE GOLDEN KERRIA

(The Globe Flower)

Truly year around beauty. The button-like golden flowers cover the bush all summer. The very dense "saw-tooth" foliage serves as an interesting background. In winter the light green twiggy stems are very decorative. Grows 3-5 feet tall. 12-18 in., \$1.25 ea.; 2 for \$2.25, postpaid. 18-24 in., \$1.50 ea.; 2 for \$2.75, postpaid.

SILVER LEAF VARIEGATED DOGWOOD

(*Cornus elegantissima*)

Outstanding accent plant. Leaves deep green in center, with wide border of silvery white. White flowers in early June, followed by attractive white fruits in late summer. Red stems furnish interest in winter. Stands very wet soil conditions. 18-24 in., \$1.50 each; 2 for \$2.85. 2-3 ft., \$2.00 each; 2 for \$3.75, postpaid.

SHRUBS - Medium in

Summer Lilacs

Butterfly Bush

- BLUE WONDER.** Long sprays, beautiful blue.
- BURGUNDY.** Rich dark royal purple. Large sprays 2 feet in length. New variety of merit.
- CHARMING.** Long sprays of lavender-pink.
- DUBONNET.** Large sprays of wine-red.
- ILE DE FRANCE.** Violet-purple; very fragrant.
- ORCHID BEAUTY.** Orchid-pink, brilliant orange eye. Flower heads up to 24 inches in length.

THE POPULAR ALL-AMERICA LARGE FLOWERING SNOWBALL

(Improved *Viburnum Plicatum Sterile*)

There are few June-flowering shrubs which can match the rare beauty of the pure white flowers arranged in perfectly round "snowballs" 3 to 4 inches across. It's a stately, erect grower dressed in beautiful rich green foliage. Makes a handsome 6- to 8-ft. specimen.

	Each	2 for
18-24 in.	\$1.25	\$2.35
2- 3 ft.	1.50	2.75
	Postpaid	

VARIEGATED WEIGELA

An attractive shrub of spreading growth, attaining a height of 4 to 5 feet. Flowers are pale pink, trumpet-shaped, blooming in June. Foliage is a handsome green, edged with creamy white. **18-24 in., \$1.25 each; 2 for \$2.25. 2-3 ft., \$1.50 each; 2 for \$2.75, postpaid.**

ROSA HUGONIS - Hugo Rose

A Colorful Protective Shrub — Good for Hedging

China named this often-called Golden Rose after Father Hugo, who discovered it in China. The 4 to 5 ft. bushes are a mound of gold early in May with their bright yellow blossoms that bloom ahead of other Roses, thus making them more attractive. It is truly a lovely addition to the garden because of its admirable early flowers, its clean, fresh foliage and its charming arching habit. May be planted as a shrub border, hedge or as specimens. **12-18 in., \$1.25 each; 2 for \$2.25. 18-24 in., \$1.50 each; 2 for \$2.75, postpaid.**

SCARLET QUINCE (The Fire Bush)

A first choice for rich, happy spring color for both indoor and outdoor beauty. Covered with masses of semi-double, brilliant scarlet flowers, even before the attractive shiny green leaves appear. Quince-shaped, fragrant fruit makes excellent jelly and marmalade and adds to the attractiveness of this 3 to 5 ft. "must" in landscaping. **18-24 in., \$1.00 each; 2 for \$1.80. 2-3 ft., \$1.25 each; 2 for \$2.25, postpaid.**

height - 4 to 6 ft.

These shrubs are ideal for planting on the corners, between windows and as a background shrub with those listed on pages 6 and 7.

HILLS OF SNOW HYDRANGEA

A Grand Shrub for Shady Places

This easy growing shrub thrives everywhere and never fails to put on a display of showy, pure white, snowball-like flowers. Grows approximately 3 feet tall. A good shrub for shady places.

	Each	2 for
18-24 in.	\$1.00	\$1.80
2- 3 ft.	1.25	2.25
Postpaid		

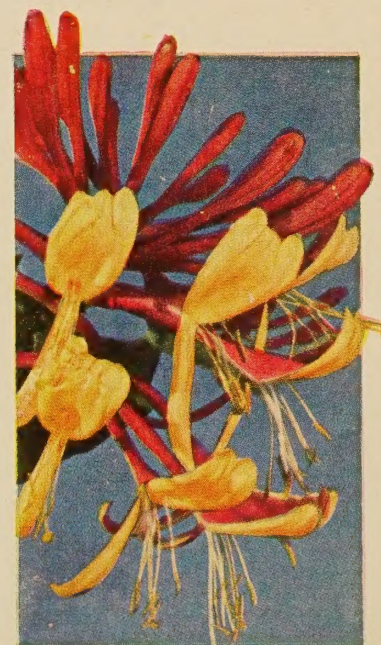

WEIGELA, EVA RATHKE

Famous for its scarlet, trumpet-shaped blooms and for its hardiness. Growing 3 to 5 feet high, it blooms heavily in June and moderately during the rest of the season.

	Each	2 for
18-24 in.	\$1.00	\$1.80
2- 3 ft.	1.25	2.25
Postpaid		

GOLDFLAME HONEYSUCKLE

From June until freezing, this magnificent vine is covered with showy clusters of large, fragrant flowers, rosy flame outside and gold inside. The attractive foliage, a rich blue-green, makes a perfect background for the brilliant flowers. Hardy, thrives in full sun or partial shade. It can be used in so many places—trellis, porch, pergola, fence, fine for covering bank or can be trained as a shrub. **2-yr., large, \$1.25 each; 2 for \$2.25, postpaid.**

EUONYMUS ALATUS COMPACTUS

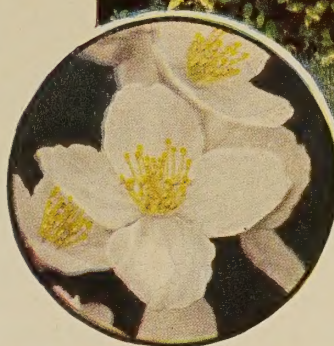

(Burning Bush)

**A Different Color Each Season
A Blazing Copper Color in Fall**

Yellow flowers in May-June, followed by red fruits. In autumn the leaves turn brilliant coppery crimson tinged rose. Has an unusual corky bark. Thrives in partial shade or full sun. Perfectly hardy, makes a compact bushy plant 4 to 5 feet wide. Not particular as to soil. Very ornamental and attracts attention, spring, summer, fall and winter.

12-18 in., \$1.75 each; 2 for \$3.00, postpaid.

18-24 in., \$2.25 each; 2 for \$4.00, postpaid.

GOLDEN SYRINGA

(Philadelphus aureus)

Always a "showy" shrub because of its all-season golden yellow foliage. Flowers are intensely white, with a fragrance which is delightful, more delicate, yet as penetrating in the garden as that of the Jasmine. Grows to a height of 4 to 5 ft., and is not fussy about location—doing well in smoky or dusty places. **12-15 in., \$2.00 each; 2 for \$3.75, postpaid. 15-18 in., \$2.25 each; 2 for \$4.25, postpaid.**

SHRUBS - Medium in

COTONEASTER DIVARICATA

The Berried Shrub That is Particularly Adapted to Accent Corner of a House Planting

Is upright in growth, though the branches are spreading. The leaves are pointed, glossy green above, lighter below, turn red in autumn. The flowers are pink and appear in June. The fruit is oblong, ripening in August and September, and stays red for a long period. Grows 3-5 ft.

12-18 in., \$1.25 each; 2 for \$2.35.

18-24 in., \$1.50 each; 2 for \$2.75.

Postpaid

HYDRANGEA PEEGEE

A tall, stately shrub growing 4 feet in height. Branches bending over with giant cone-shaped flowers which are white at first, then pink and later in fall turning to copper and bronze. When cut, they last for weeks inside.

	Each	2 for
18-24 in.	\$1.00	\$1.80
2- 3 ft.	1.25	2.25

CALYCANTHUS

Sweet-Scented Shrub

Many know it as the Carolina Allspice. The handsome, bronze-chocolate flowers produced in June are most entrancing, because of their spicy fragrance. Odd looking pods develop which are filled with brown, aromatic seeds. Glossy corrugated foliage adds to its unusual appearance. Grows 4 to 6 ft. tall, and spreads over an area equally broad.

	Each	2 for
18-24 in.	\$1.00	\$1.80
2- 3 ft.	1.25	2.25

RED FLAME BUSH

Red-Leaved Barberry

Very charming all season with its flattering bronze-red foliage. Adds that spot of color needed to brighten up the landscape. Must be planted in a sunny location to maintain its rich red coloring. Grows naturally to a height of 3 feet, but may be pruned to any size or shape desired. **18-24 in., \$1.00 each; 2 for \$1.80. 2-3 ft., \$1.15 each; 2 for \$2.25, postpaid.**

GOLD DROP POTENTILLA

A charming, small, compact growing shrub which is cheerfully brilliant throughout the entire summer and fall. It is closely and densely covered with fern-like leaves, studded with intensely brilliant golden yellow, Buttercup-like flowers. A mound of green and gold all season.

DOUBLE MOCK ORANGE

(Philadelphus, Virginal)

May and June finds the long, slender, erect branches heavily laden with lovely, pure white, sweet-scented, double, 2-inch flowers. Will tolerate smoke and other hard city conditions. Grows to an ultimate height of 4 to 6 ft.

	Each	2 for
18-24 in.\$1.00	\$1.80
2- 3 ft. 1.25	2.25
Postpaid		

height - 4 to 6 ft.

Ideal for planting on the corner, between windows and as a background shrub for the smaller varieties listed on pages 6 and 7.

Rose-Gold PUSSY WILLOW

New. In late February or March has thousands of silvery catkins which progress through a fascinating series of color changes. First silvery gray, then turn silvery pink, then rosy pink dotted with hundreds of bright yellow stamens, finally become nearly solid gold. Low mounded plant. Attractive silvery foliage stays until winter. Catkins large, last for weeks and weeks. Can be forced indoors. Grows 4 to 6 ft. **18-24 in., \$1.50 each; 2 for \$2.75. 2-3 ft., \$2.00 each; 2 for \$3.75, postpaid.**

VITEX

The Distinctive Lavender Shrub

A 4-foot, dainty shrub of branching habit, which bears long spikes of lavender-blue flowers, forming a beautiful contrast to the silvery green foliage in August and September.

Each	\$1.25
2 for	2.25
Postpaid		

LILY-OF-THE-VALLEY

FLOWERING SHRUB

Andromeda . . . Pieris Japonica

Andromeda have unusual charm because of foliage and flowers. Deep green, leathery foliage, which becomes reddish and bronzy in winter. The flowers are white, bell-shaped, produced in drooping clusters during April and May. Could be forced in a pot to bloom before Christmas. Prefer partial shade, and well drained soil. Grows slowly. Height 7-8 feet. **\$2.00 each; 2 for \$3.75, postpaid.**

**Extra Large
PUSSY WILLOWS**
Always Welcome for
House Decoration

Dainty silvery pink catkins grow on this fine cultivated French variety. Attractive shrub in summer which can be used for tall screen or background. No bouquet is complete in early spring without Pussy Willows. Grows 10 to 12 ft. high. Catkins twice the size of common Willows. Do well in damp locations. **18-24 in., \$1.00 each; 2 for \$1.80. 2-3 ft., \$1.25 each; 2 for \$2.25, postpaid.**

WINTERBERRY
(*Euonymus radicans erecta*)

A broad, spreading shrub clothed in rich bright green foliage that remains on the plant year round. It's a plant that blends well with established evergreen plantings. Thrives in sun or partial shade. Makes a shapely bush 4-5 ft. tall with red berries which hang on late in the season. This is not an ordinary shrub. Be the first to have it in your neighborhood. **12-18 in., \$1.25 each; 2 for \$2.25. 18-24 in., \$1.50 each; 2 for \$2.75, postpaid.**

Sweet-Scented VIBURNUM
Blossoms Toned Light Pink—
With Spicy Fragrance
(*Viburnum Carlesi*)

This grand shrub is generally called the Pink Snowball. In the spring it is covered from top to bottom with very fragrant flowers that are light pink on the outside and the inside snowy white. It makes a nicely shaped bush 5 to 6 feet tall and just as wide, with branches right down to the ground. The deep green foliage colors a bronzy red in the fall. Is planted from coast to coast. It adds beauty and distinction to your planting. **12-18 in., \$2.45 each; 2 for \$4.75. 18-24 in., \$2.95 each; 2 for \$5.75, postpaid.**

LARGE FLOWERING SHRUBS-

FORSYTHIA, "SPRING GLORY"

New! Larger, Brilliant Yellow Blooms for Earliest Color

A spectacular new Forsythia which bears masses of so much larger blooms than older varieties that a mature plant in full bloom* in early spring is an almost unbelievable sight. The brilliant large yellow florets completely cover the branches, giving the effect of a giant sunburst. Canes grow erect with gracefully drooping tips. Very hardy in all sections of the country and thrives and grows vigorously in ordinary soil. Height 6 to 8 feet tall. **18-24 in., \$1.00 each; 2 for \$1.80. 2-3 ft., \$1.25 each; 2 for \$2.25, postpaid.**

ROSE TREE OF CHINA

(*Prunus triloba*)

Branches are hidden under a fleecy cloud of bright pink double blossoms resembling small pink Roses, even before leaves are out in the spring. A breath-taking sight in full bloom, especially when it reaches full height of about 4 to 6 feet. Should be included in every yard. Very hardy and easy to grow. **2-3 ft., \$2.00 each; 2 for \$3.75. 3-4 ft., \$2.50 each; 2 for \$4.75, postpaid.**

FRAGRANT LILACS

Fragrant—Large Clustered Blossoms

The living landmarks; hardy and vigorous in any soil or climate, growing 6 to 8 feet tall. Large clusters on Decoration Day, very fragrant. Offered in both purple and white. State color desired.

HIGHBUSH CRANBERRY

Excellent to Hide Unsightly Places

One of the finest background and screen shrubs. Upright-spreading habit and healthy, deep green, 3-lobed leaves. Flowers heavily in May and June—white, flat clusters. Large clusters of scarlet berries remain in winter, make a valued tart jelly. Bright red fall foliage color. Grows equally well in shade or sun and in normal to wet soils. Height 8 ft.

	Each	2 for
18-24 in.	\$1.25	\$2.35
2- 3 ft.	1.50	2.75

6 to 8 ft. high

Above eye level. These plants are ideal for hedges, mass plantings or individual yard plantings. They make an excellent background with the medium and small size shrubs planted in front.

SPIRAEA VAN HOUTTEI

The All-American National Favorite

Leaves Stay on All Winter

Probably the best known of all the shrubs. Will tolerate shade and adverse city conditions. Grow in any soil. The pure white flowers which completely cover the arching branches in May, transform the bush into a thing of beauty. This most popular Spiraea develops into a 6 ft. or more shrub, which may be used for specimen planting or for a hedge. It increases in beauty each successive season. Should be included in all plantings.

LARGE COLORFUL SHRUBS

The Lovely Flowering ZABELI HONEYSUCKLE

(*Lonicera zabeli*)

A Shapely Bush Fine Foliage

A marvelous accent or specimen shrub. If you want a stunning flowering hedge at 4 to 5 feet, this is it. Sturdy, upright growth; attractive blue-green leaves; profuse red flowers in spring and long lasting red berries late summer and fall. If you wish to keep it thick and formally trimmed, plant 1½ ft. apart, but for its informal beauty, plant 3 feet apart.

18-24 in., \$1.00 each; 2 for \$1.80. 2-3 ft., \$1.25 each; 2 for \$2.25, postpaid.

DOUBLE FLOWERING FRENCH LILACS

You are sure to enjoy these beautiful French Hybrid Lilacs. All double flowering varieties that will last a lifetime. You get a wealth of sweetly perfumed blossoms the first year after planting, and they will bloom every year. We highly recommend them. Height at maturity 8 to 12 feet.

BLUE (Pres. Grevy). Soft blue-violet in large clusters. A great favorite.

WHITE (Mont Blanc). Large, compact clusters of purest white.

WINE-RED (Charles Joly). Its narrow, upright habit of growth is adapted to the smaller garden where space is limited.

PINK (Belle de Nancy). A gorgeous mass of double flowers, very full with immense spikes.

LAVENDER (Pres. Carnot). Midseason. Bluish lilac.

18-24 in. plants, \$1.75 each; 2 for \$3.25, postpaid.

MINNESOTA SNOWFLAKE

(Plant Pat. No. 538)

The Fragrant New Mock Orange

The NEW outstanding Mock Orange, beautiful as a Gardenia. The flowers are large, double, with orange-blossom fragrance. The season of flowering is early summer. Grows 8 feet high. It can be kept to the desired height by trimming. It is a strong grower; therefore very useful for screen, tall border and specimen plantings.

Kelly Bros. Nurseries, Inc.,
Dansville, N. Y.

Gentlemen:

The Cortland and Wealthy Dwarfs you sold me a few years ago went to town this year. The former had 242 large Apples and the latter 240. That speaks well for Kelly Dwarfs.

Cordially,
Dr. G. E. Jorgenson,
Clermont, Iowa

Hypericum Hidcote

Kelly Bros. Nurseries, Inc.,
Danzville, N. Y.

29 Pond St.,
South Braintree 85, Mass.
May 31, 1955

Gentlemen:
My recent order to you for Double French Lilacs and Ra-Pid-Gro has been received.

The Lilacs were of the highest quality and in a healthy and vigorous condition upon arrival. I am exceptionally well pleased with them. I am positive it will be no one's fault but my own should they not respond as I expect they will.

It is a great pleasure to do business with folks like you, since I know you do your utmost to please and satisfy your customers. I have purchased at different times from you in the past, and I have yet to receive anything but superior quality stock. I am always sure of a square deal from you.

Sincerely yours, Charles L. Pratt

HYPERICUM HIDCOTE

This beautiful hardy shrub was originated several years ago in the famous Hidcote Estate in England.

It was brought to this country five years ago and is proving more popular every year. In the temperate parts of this country from Washington south, it reaches a height of 4-5 feet and is practically evergreen. In colder parts it may freeze to the ground but it springs up again from the base in the spring, reaching 2-3 feet. The bright yellow flowers, 2-3 in. in diameter, are produced in profusion during the spring months and again during the summer. Planted 18 in. apart it will make a compact, attractive flowering hedge.

This beautiful shrub deserves a prominent place in every garden where continuity of flowers is wanted.

**\$2.00 each; 3 for \$5.50;
6 for \$10.00; 12 for \$18.00;
24 for \$30.00.**

Kelly's 1956 Pleasant Surprises in Better Garden Shrubs

CAMELLIA Camellia Sasanqua

Fall and Early Winter Flowering

A beautiful shrub which is rapidly taking its place in the garden. A Sasanqua plant is evergreen and is breath-taking when you see it covered with hundreds of blossoms in late October, November or December. You may cut the blossoms with nice stems and have them in the house where they last for days on end.

The individual flowers are varied in form and shape, and can be had in a wide range of colors. The plants are hardy, needing little winter protection. They will survive on Long Island or in Massachusetts.

Grown in pots or small tubs outside during the summer, they may be brought inside when cold weather approaches, placed in a cool room, where they will flower for weeks on end. But remember, they do not like heat in the winter.

Vines Not Illustrated

ENGLISH IVY

(Evergreen)

Ugly bareness becomes a spot of beauty when buildings of stone, concrete or stucco, and "hard-to-cover" slopes and banks are covered with the dense, rich, glossy evergreen foliage of English Ivy. Famous for long life. Mass effect can be created by planting 2 to 3 feet apart. **\$1.00 each; 2 for \$1.80, postpaid.**

DUTCHMAN'S PIPE

(Aristolochia Siphon)

The curious brownish pipe-shaped flowers are a delight to children, and the large heart-shaped leaves make a dense screen. Few vines are better adapted to porches or pergolas. Grafted plants. **\$2.25 each, postpaid.**

Place Your Orders Early

Early Orders help avoid "the planting time rush" and are much easier for us to handle. If you send us your order for nursery stock before March 3rd, you may take advantage of our special premiums from the list appearing on page 4.

NO HOME PLANTING IS COMPLETE WITHOUT
DWARF FRUIT TREES
This picture taken beside a 4-year fruiting Dwarf Red Delicious

DWARF APPLES

These trees at maturity will reach a height of 12 to 15 ft. tall and they can be planted 15 to 20 ft. apart in your home orchard. Besides being a beautiful addition to the landscaping of your home they develop crops of fruit each year. You will have much enjoyment standing on the ground picking fresh luscious fruit from these small trees within two years after you plant them.

DWARF CHERRIES

GREAT NEW NORTH STAR. Very hardy—will succeed farther north than any other Cherry. It is a cross between a very hardy Siberian Cherry and the English Morello. It is a Morello type of pie Cherry and at first the fruit is a bright red changing to a mahogany-red. The skin is tender and the flesh is juicy, meaty and tender. The tree is small by nature but very productive. Ripens July 5th to 10th, and the fruit will hang on the tree in good condition for about two weeks. **2-3 ft., \$3.00 each; 2 for \$5.75, postpaid. 3-4 ft., \$3.50 each; 2 for \$6.75, postpaid.**

BRILLIANT NEW METOR. A cross between Montmorency and a very hardy small fruited unnamed Cherry from the Canadian Experiment Station at Morden, Manitoba. The cross was made by the Minnesota Fruit Breeding Farm. It first fruited in 1944 and since then has never missed a crop. Hardy in northern sections where other Cherries cannot be grown. The tree is a strong and vigorous grower. The fruit is large to very large and is a very attractive clear bright red with thin skin and tender. Ripens midseason in relation to other sour Cherries. Self-fruitful. **2-3 ft., \$3.25 each; 2 for \$6.25, postpaid.**

DWARF PLUMS

Blueberries Besides Furnishing the Favored Fruit for the Table, Make Delightful Shrubs in the Garden

To insure best crops of fruit, plant two or more varieties for proper pollination.

Blueberries like acid soil. To increase the acidity use Aluminum Sulphate which is listed below.

For Delicious Pies

Enjoy luscious, juicy, giant Blueberries right from your own bushes. These mouth-watering beauties are as big as Grapes. Delicious for pies, easy to preserve, fine for freezing. Bushes are trim and very ornamental planted in borders or beds.

Complete planting and after care instructions sent with each order.

- ✓ ★ **ATLANTIC.** Very rugged bush that yields big quantities of large, slightly aromatic dessert berries. Fruit has splendid freezing qualities.
- ✓ ★ **BURLINGTON.** Extends the Blueberry season 5 to 10 days. A sturdy, upright bush noted for its high production of medium size, aromatic berries. An appealing color and firmness are fine dessert qualities. Very good to ship.
- ✓ ★ **JERSEY.** Vigorous, hardy bush that grows erect up to 6 ft. or 7 ft. with delightful foliage. Produces large light blue berries that ship well. Yields extra large berries. A fast growing, good commercial variety. Attractive and very ornamental with large leaves.
- ✓ ★ **PEMBERTON.** Considered the most vigorous of all. A very fast grower of big firm berries. Firmness and slight aroma make wonderful dessert. Very fast grower.
- ✓ ★ **RUBEL.** A very hardy, upright bush that gives generous yields of medium size, light blue, firm fruit. Has average growth factors and is very much in demand. Its slightly tart flavor is popular with pie bakers.

MASSACHUSETTS TRUENESS-TO-NAME INSPECTION SERVICE

Amherst, Mass.

Sept. 1, 1955

All of the Apple, Pear, Plum, Sweet Cherry, and 2-year Sour Cherry varieties propagated and now growing in the nurseries of Kelly Brothers Nurseries, Inc., Dansville, New York, have been examined by the Massachusetts Trueness-to-name Inspection Service. To the best of our knowledge, these trees are true to name as they now stand in the nursery row.

KELLY'S APPLES

GENERAL LIST OF APPLE TREES

SUMMER APPLES

Months listed after description indicate the time at which the fruit is at its best for general use. Dates indicate time of ripening.

- ✓ **RED DUCHESS.** A solid red strain of the old Duchess of Oldenburg. One of the hardiest varieties grown. Fruit is large, striped red in color. A good early eating Apple. Vigorous grower. Regular and prolific bearer. Excellent for pies and sauces. August 5-10.
- ✓ **LODI.** A new fruit that closely resembles one of its parents, Yellow Transparent, but the fruits are larger and ripen a little later. An annual bearer that is becoming a commercial variety. August 10-15.
- ✓ **RED GRAVENSTEIN.** A new red sport, much more attractive than its parent. Differs from old Gravenstein, being solid dark red in color, is a better keeper and hangs better on the tree. September 10-15.
- ✓ **RED ASTRACHAN.** One of the best summer varieties, as it becomes fully ripe and ready for home use from late July to August. Fruit very handsome, large, round, nearly covered with deep crimson, overspread with thick bloom; juicy and good though rather acid. Tree medium size, yielding good crops. August 2-6.

Prices of Kelly's Inspected Apple Trees

(Except as noted)

	1-6 Each	7-12 Each	13-25 Each	26-50 Each

Commercial growers interested in 50 or more trees, please write for our Commercial Price List.

6 GOOD APPLES In Color on Page 22

✓ **CORTLAND.** An Apple of the McIntosh type, combines the high quality and flavor of the McIntosh, and tendency to hang to the tree of the Ben Davis. The fruit of Cortland is larger than that of McIntosh, round in shape, color bright red splashed with carmine and overlaid with purplish bloom. October-February.

✓ **DOUBLE RED DELICIOUS.** A large, dark red Apple, with crisp, fine-grained flesh of excellent quality and flavor; a splendid keeper and shipper. Tree one of the hardiest. A regular annual bearer. Excellent for eating and the most popular fruitstand Apple. Nov.-March.

✓ **MILTON.** Bright pinkish red, large, flesh tender, very white and a refreshing aroma. An early and annual bearer. Excellent for home and roadside markets. September 15-20.

✓ **YELLOW DELICIOUS.** A bright, golden yellow Apple of excellent quality. Firm, crisp, and very juicy. Splendid keeper. Bears young and heavily. October to April.

✓ **RED McINTOSH.** (Rogers Solid Red Strain.) Without doubt the leading commercial variety of New York and the New England States. A very attractive red Apple of the highest quality. Hardy, bears young and annually. Flesh white, fine, very tender, juicy and refreshing, with attractive flavor. October-January.

✓ **RED ROME.** Red sport of Rome Beauty, and like Gallia Beauty is identical with its parent in all characteristics except fruit is a solid red color. December-May.

✓ **EARLY McINTOSH.** For home orchard or commercial use this is the ideal early variety to plant. Resembles its McIntosh parent with its handsome red color and uniform, round shape. The tree is a vigorous grower, hardy and productive. Tends to be a biennial bearer, although for annual crops early thinning is recommended. It comes into bearing at an early age. The flesh is white, tender and juicy with fine flavor. August 15-25.

✓ **WEALTHY.** Beautiful, moderate sized, brilliant red Apple; fine quality. Owing to hardiness of the tree, its adaptability to cold climates and early bearing habits, can be profitably planted as a filler. September 15-20.

✓ **YELLOW TRANSPARENT.** Fruit of good size; skin clear white turning to pale yellow; flavor acid and very good, making it excellent for cooking. Begins to ripen some time in July and continues for 3 or 4 weeks. Tree very early and abundant bearer. August 3-7.

WINTER APPLES

Months listed after descriptions indicate the time at which the fruit is at its best for general use.

✓ **BALDWIN.** Yields large crops and is an excellent shipper. Highly regarded as an eating and cooking Apple, having a flavor all its own. Fruit is large, bright red, crisp, juicy and rich. December-March.

✓ **MACOUN.** A late McIntosh type Apple ripening about 10 days later than McIntosh. Dark red with whitish, close-grained flesh. Fine quality. A heavy and regular bearer. Introduced and recommended by N. Y. Experiment Station. November.

✓ **MONROE.** A Grand New Apple from the N. Y. Experiment Station. Named and introduced for trial in 1949. Tree upright-spreading, vigorous and an annual bearer. Fruit large, roundish conic; color similar to Jonathan, its maternal parent. Flesh yellowish, crisp, juicy and mildly sub-acid; quality good. Winter Apple that offers possibilities for dessert and culinary uses. Supply limited—order today. **1-yr. trees, \$1.50 each; 3 for \$4.25; 10 for \$12.50. 2-yr. trees, \$2.00 each; 3 for \$5.75; 10 for \$17.50.**

✓ **NORTHERN SPY.** Easily ranks among the very best winter Apples. Fruit is large, very attractive, being of bright red color with a pronounced bloom. Flesh is juicy, crisp and excellent for dessert or culinary purposes. Keeps well in storage until April or later. November-April.

✓ **RED SPY.** A new red sport identical with Northern Spy, except that the fruit is a solid bright red without either stripe or splash. Much handsomer than its parent. November-May.

✓ **RHODE ISLAND GREENING.** As a cooking Apple it is unsurpassed, and as a dessert fruit of its season, has few equals. It is a good keeper but keeps better if picked early. This Greening is a beautiful yellow color when ripe and an abundant yielder. December-April.

✓ **ROME BEAUTY.** Yellow and red-striped Apple of excellent quality. Prolific annual bearer. Early bearer and good keeper. Profitable commercial sort for New York, Ohio, Pennsylvania, and West Virginia. December-May.

✓ **STAYMAN.** Comes into bearing young. A reliable cropper. Medium to large size fruit. Slightly striped, coloring to dull red. December-March.

YELLOW DELICIOUS. See illustration, page 22, and description at left.

✓ **DAVEY.** Plant Pat. 906. A McIntosh seedling from the orchard of S. L. Davenport, North Grafton, Mass. Thoroughly tested, we can recommend it. Bears early and annually. Resistant to scab. Blossoms with McIntosh, matures with Baldwin. Distinct flavor of its own. Texture resembles Wealthy. Size and shape similar to McIntosh. Easy to handle, good shipper. **Price: 2-yr. trees, \$1.50 each; 3 for \$4.00; 10 for \$12.50.**

To insure cross-pollination be sure to plant two varieties of Apples.

NORTHERN GROWN • TOP QUALITY • PROLIFIC CROPS

✓ **NAPOLEON**

(Royal Ann)

Choice Sweet Cherry. Good for market and canning. Large size, beautiful Cherry, pale yellow with bright red cheek; sweet, juicy and firm. The leading pink-cheeked Sweet Cherry. Ripens July 7th to 10th.

This picture is a colored kodachrome taken at the orchard of one of our customers. Note the heavy yield, a characteristic of Kelly's scientifically grown trees. You Never Gamble With Quality—It's Your Best Bet.

CHERRIES

✓ **WINDSOR** Sweet Black Oxheart

One of the best quality dark Cherries, often referred to as Black Oxheart. Has pinkish flesh and almost black skin. Large, juicy and firm. Delicious to eat fresh, and wonderful for canning. Used extensively for fancy preserving. Tree grows upright and is a rapid and vigorous grower. A good commercial variety. Ripening date July 20-26.

✓ **BLACK TARTARIAN** - Sweet

Well known and popular sweet Cherry; very large, bright purplish black, juicy, and has a rich flavor. Excellent for canning and a good shipper. Trees are remarkably vigorous and erect growers, produce immense crops. Ripening date June 20-July 4.

Windsor

Black Tartarian

✓ **SCHMIDT'S BIGARREAU** Sweet

A midseason black sweet Cherry. Considered one of the best large varieties of its season. Delicious to eat fresh and canned, and very attractive. Fruit grows in clusters. Keeps well and is an excellent shipper. In size it is usually unsurpassed by any black Cherry in the East. Ripens about July 10.

✓ **MONTMORENCY** THE LEADING SOUR CHERRY

"Best Pie Cherry." Fruit is good sized, fine flavor and bright, clear red. The canning factories are always calling for them and buy them by the hundreds of tons. The best of all sour varieties; is a good shipper, very attractive and always brings good prices. Fruit ripens 10 days after Early Richmond.

✓ EARLY RICHMOND

Fruit small but good and the earliest of the sours. Unsurpassed for cooking purposes. This is the variety that yields such marvelous crops in the home gardens. Most hardy of all varieties. Uninjured by the coldest winters. Tree slender in growth, with a roundish, spreading habit. Ripens June 25-30.

MONTMORENCY

(See Description on Opposite Page)

✓ ENGLISH MORELLO

Fruit is handsome in appearance, real tart. Is recognized as the standard late sour Cherry, taking the place of Montmorency after its season is over. Cooking gives the fruit a rich, dark wine color, very attractive in appearance and a pleasant, aromatic flavor. Tree is small, upright spreading with drooping branches. Ripens July 20-30.

Many people often ask which varieties we would suggest for planting. We highly recommend Windsor, Emperor Francis, Napoleon, and Schmidt's Bigarreau. Each one pollinates the other—any combination of two or more gives desired results.

✓ BLACK GIANT

Was introduced by Luther Burbank in 1914. Tree is large, vigorous, very productive. Cherries are attractive in size and color; the crop is late, coming in season just before Lambert, which the black fruits resemble. Quality is excellent and less subject to cracking than Bing. One of Burbank's most notable productions.

✓ EMPEROR FRANCIS

The Queen of All Sweet Cherries

Recognized as one of the newer leading sweet Cherries for home and commercial orchards. This high quality Cherry resembles Napoleon in size and color except that it becomes a little darker. Ripens around July 4th. Sold at same prices as regular varieties.

Pollination

Sweet Cherries are self-unfruitful, so must be interplanted. Where Napoleon, Bing, Lambert and Emperor Francis are to be planted together, another variety, such as Windsor or Black Tartarian must be added, as the first four will not pollinate each other. The Sour varieties are self-fruitful.

ALL KELLY CHERRY TREES are shipped with a New York State Dept. of Agriculture Certificate, certifying that our trees are budded from healthy trees and guaranteed to be virus free.

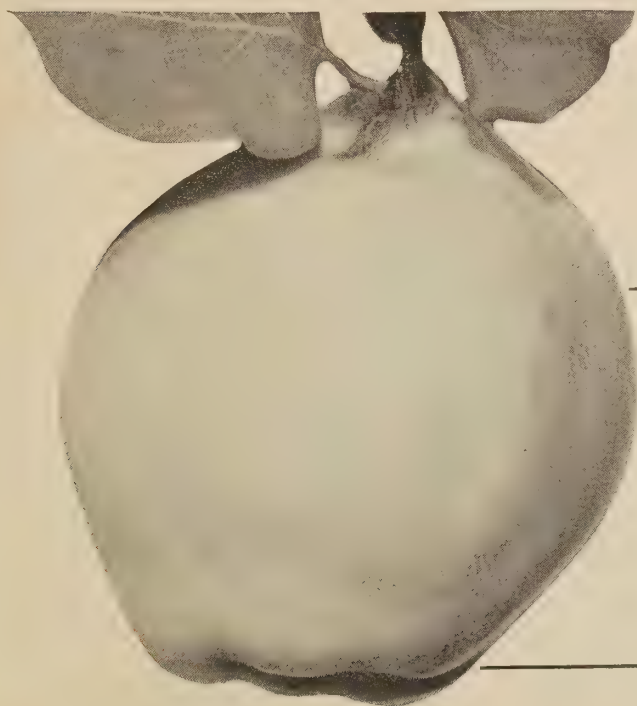

Kelly's Famous ORANGE QUINCE

For Delicious Jelly

Its pre-eminence as a fruit for jellies and preserves makes the Quince a profitable tree for the fruit grower, the farmer or anyone having a small garden. The Quince tree does not take much room on account of its dwarfish character. It can be grown in bush or tree form. Fruit is large golden yellow and of excellent quality. Makes delicious jells. Ripens early in September. Grows 10 to 15 feet tall. Produces abundantly.

	Each	3	10

Kelly's Famous

BARTLETT

America's Favorite for Size and Taste

There's hardly a person that doesn't know the Bartlett Pear and its qualities, as it is grown in, and is adaptable to all different climates, soils and situations. Fruit is large, golden yellow in color with a reddish blush on the sunny side. Flesh is tender and juicy, with a delicious musky aroma. Trees are vigorous, attain large size, bear young, live long, and barring frosts or freezes, they bear full crops year after year. Justly the leading commercial Pear—a leader among canning Pears. Sept-Oct. (Sept. 1st-10th.)

CLAPP'S FAVORITE

A Full Bodied Pear That Should be in Everyone's Fruit Garden

Precedes Bartlett, which it resembles in size, shape, color and flavor. It is the first Pear on the market. Large, pale lemon-yellow fruit with brown dots. Fine texture, juicy, buttery, with a rich, sweet, delicate vinous flavor. Tree hardy and productive. Thrives where other varieties fail. August 15-20.

KELLY'S DELICIOUS PEARS

SECKEL

**Eating and Pickling
The Best to Grow**

The Pear to plant for eating fresh and pickling. Medium size, skin rich yellowish brown with deep, brownish red cheek when fully ripe. Flesh very fine grained, juicy, sweet and good. Trees resistant to blight, very productive and hardy. Should be planted in fertile soils, not heavy clay. September and October. (September 20-25).

BOSC - Quality Pear

**"Long Tapered"
Kelly's Has Recommended
This Variety for Years**

A Pear which is rated by all as "very good" or "best." Has a long, tapering neck and a long stem which allows it to sway in heavy winds without dropping. Brownish yellow in color. Flesh is tender, buttery, very juicy, with a rich flavor and pleasing aroma. The tree is a slow grower, but most productive. Oct. to Jan. (Sept. 25-30).

**Bosc Is Very
Long and A
Delicious
Eating
Pear**

POLLINATION

Two varieties are needed. The only combination that is cross-incompatible is Seckel and Bartlett. A third variety is needed with the above two.

Other Selected PEARS

Not Illustrated

- ✓ **ANJOU.** This is one of the best late fall and early winter varieties for the market, its season lasting until way into January, even in common storage. Large fruit, green in color, but turning to yellow when ripe, dotted with russet. The yellowish white flesh is firm, but tender, very juicy, sweet, spicy, with a rich, vinous flavor. Trees hardy and vigorous growers, come into bearing early, October to January. (September 25.)
- ✓ **DUCHESS D'ANGOULEME.** The fruits excite admiration and wonder by their enormous size. Always known by this characteristic. All dull greenish yellow, spotted russet. Trees are vigorous, hardy and healthy. It is a particularly desirable sort for the Pear fancier. Nov. to Dec. (Sept. 25-30).
- ✓ **GORHAM.** A seedling of Bartlett and closely resembles its parent in all characteristics and ripens from 3 weeks to a month later. It rivals Bartlett in all good qualities, being as large and handsome and as good or better to eat or to can. Fine canner—introduced by the New York State Experiment Station. (September 10-25).
- ✓ **SHELDON.** The fruits please both the eye and palate. It is distinctive in its russeted skin with a ruddy cheek. Flesh is juicy and deserves to be called luscious. Flavor is sweet, vinous and highly perfumed. Keeps well and ships well. Trees are vigorous and hardy. October. (September 20).
- ✓ **TYSON.** The Home Orchardist's First Choice. The quality of this old favorite is far superior to that of commonly grown Pears. The tree is a thrifty grower and very hardy—fruit is medium size, juicy with a spicy, scented sweetness that gives the fruit the charm of individuality. (Ripens late in August).

2 NOVELTIES WORTH GROWING

KELLY'S BEACH PLUM

(Prunus Maritima)

Ideal as a shrub—also produces delicious fruits. Bears first or second year after planting. Grows 6 to 8 feet at maturity. Hardy; does well in poor soil. Beautiful white blooms late in the spring before the leaves appear. Purple fruit, ripe in September, makes excellent jelly. **Selected plants, \$1.95 each, postpaid.**

**CULTIVATED ADAMS
ELDERBERRY**

For Wines and Jellies

The large berries and extra large fruit clusters of this new improved variety are far superior to common varieties. Grows 5 to 6 feet tall. Popular for pies and home-made wines. Beautiful as an ornamental plant. **Bearing size plants, \$1.25 each; 2 for \$2.25, postpaid.**

- ✓ **DAMSON.** Fruit is medium size, dark purple, produced in thick clusters. Good to eat out of hand when fully ripe or after a light frost. One of the best of its kind for culinary purposes. Tree a good grower and very productive. September 24-28.
- ✓ **ABUNDANCE.** Trees are adaptable to wide range of soils and climates, and bear not only heavily but yearly. Fruit large, very early, amber turning to a rich, bright cherry. Flesh light yellow, very juicy and tender. Freestone. Good for canning. Should be picked when not quite ripe, as it keeps better and taste develops better. August 15-20.
- ✓ **BRADSHAW PLUM.** A very large and fine early Plum. Attractive, dark violet skin with yellow flesh. Very juicy; excellent for dessert use and for canning. The tree is hardy and a vigorous grower. Especially desirable because of its ability to produce heavy crops of delicious fruit annually. Bradshaw is recommended for the home orchard as well as for the commercial grower. September 5-10.
- ✓ **BURBANK.** Fruit very large, bright reddish purple. Meaty and quite firm. Should be picked before entirely ripe. Best colored fruit attained when thinned on the trees. Trees are low growing, flat-topped with somewhat drooping branches. Productive and vigorous. Good shipper. Aug. 25-30.
- ✓ **FELLEMBERG PRUNE.** Also known as **Italian** and **German**. Widely known and valuable Plum for dessert, but most esteemed for market and drying for preserves. Fruit is long, oval, purple with a thick bloom. Flesh firm, sweet and pleasant, separating freely from stone. Moderate growth. A great favorite and there is always a good market for them at profitable prices. September 24-26.
- ✓ **SANTA ROSA.** A very promising Oriental variety. Fruit is handsome, dark reddish purple. Large with very juicy, red flesh of good quality. Tree is large, vigorous and moderately productive. Aug. 20-26.
- ✓ **SHIRO.** A Golden Yellow Winner. A very early Plum. Beautiful golden yellow variety. Tree is low growing, hardy, very prolific. Excellent for cooking, canning and dessert use. People who like Plums should be sure to plant this variety. Ripens Aug. 8-15.

PLUM and PRUNE TREES for Early Crops

See Page 40
For the New
Miracle Plum

REINE CLAUDE or BAVAY'S GREEN GAGE

Has beautiful fruit, large, pale yellow, marked with red if the crop is thinned and sufficiently exposed to the sun. Trees attain only moderate size in the orchard, are productive and bear regularly. Deserves a place in the home orchard. September 25-30.

✓ STANLEY

A Better Kelly Prune

POLLINATION. With the exception of the Prunes, Fellemberg, German, Stanley, etc., which are self-fruitful, Plums should be interplanted to insure a set of fruit—European varieties for pollinating that class and Oriental sorts for those varieties.

Abundance, Burbank and Santa Rosa are Oriental varieties, balance are European varieties.

The best for commercial planting or home use. Bears fruit in 3 years and ripens 10 days earlier than other varieties. Exceptionally productive. Fruit large, deep bluish purple, firm and sweet; of excellent flavor. Introduced by the New York State Experiment Station, and is becoming a valuable commercial variety. Bears annually. Midseason. September 20-25. Same price as other Prune trees.

Choice Rhubarb

VALENTINE. Newest and best of the red Rhubarbs. It is sweetest of all, requiring the least sugar. Makes delicious pies and bright red sauce. Excellent for home use and freezing. Out of 25 varieties tested in Canada, "Valentine" rated highest. Color was an even bright red; texture smooth and tender. Flavor pleasing with a slightly tart after-taste." **\$1.00 each; 2 for \$1.85; 6 for \$4.85, postpaid.**

RUBY RED. Another new red Rhubarb introduced from Canada. The stalks are intensely red, even the flesh is red. Rhubarb sauce made from Ruby is as red as Strawberry sauce. Skin so tender it can be cooked with the stalk. Prolific yielder. **\$1.00 each; 2 for \$1.85; 6 for \$4.85, postpaid.**

CANADA RED. The reddest of all Rhubarbs. Has large, tender, juicy stalks that are rich red all the way to the heart and even to the midribs in the leaves. Skin so tender you need not peel it. **Canada Red**, a heavy producer, can be used throughout the season. **\$1.00 each; 2 for \$1.85; 6 for \$4.85, postpaid.**

NEW RED LEAF PEACH

Bright red foliage appears early in the spring, changing gradually to deep maroon towards fall. Deep rose blossoms contrast beautifully with the colorful foliage. This sensational tree produces a full crop of small perfectly round Peaches, about 1½ inches in diameter. Fruits have an over-all red color slightly splotted, and ripen quite late. **3-4 ft., \$2.00 each; 2 for \$3.75. 4-5 ft., \$2.25 each; 2 for \$4.25, postpaid.**

CHINESE CHESTNUT

A FINE LAWN TREE • FRUIT SO GOOD TO EAT

Hardy, Blight Resistant

These new blight resistant trees will bear nuts two years after planting. They are a fast growing tree and an ideal plant to take the place of the old-fashioned American Chestnut that we all remember from our childhood days. The fruit is fully as delicious as the native American Chestnut and slightly larger in size. Grows to 35 ft. tall. Best crops are insured by planting two or more trees for pollination.

Kelly's

RED HAVEN

A new, early Peach, thoroughly tested and found highly satisfactory. Introduced by the South Haven Experiment Station, it has the fine flavor of the South Haven and the Hale-Haven. When other early Peaches are still green, this Peach is a bright red and ready to ship before it is fully ripe. A Peach to plant for real profit. Hardy. Freestone. Self-pollenizing and a prolific yielder. August 20-25.

Golden Jubilee

Hale-Haven

Kelly's

GOLDEN JUBILEE

The Sensational Peach

We recommend this New Jersey Experiment Station introduction. It's a real money maker. Quite hardy, resists excessive cold. Sure cropper, after severe winters and heavy frosts. **Golden Jubilee** is without equal as an early, large yellow freestone of highest quality. Flesh is yellow, tender, juicy and sweet. August 20-25.

Kelly's HALE-HAVEN

A marvelous Peach, result of crossing the famous J. H. Hale with South Haven. A large, beautifully colored, yellow-fleshed Peach. Ripens approximately 10 days to 2 weeks ahead of Elberta. Perfect freestone; strong grower. Good shipper, and a prolific, heavy bearer. The tree is hardy and fruit is of the highest quality. Should be in every planting. September 1-5.

Enjoy Kelly's Quality Peaches

FOWLER

This Peach, developed by Mr. George R. Fowler of Marlboro, N. Y., was awarded Patent No. 567 in 1943. It is a large, yellow Peach of the Elberta type, very hardy. Tree of vigorous growth and exceptionally disease-resistant. Fruit matures a week later than Elberta, ripening evenly. Firm, thick-skinned, excellent shipper. Fine flavor and practically fuzzless. **For prices on Fowler add 15c per tree to our Peach tree prices on page 35.**

Kelly's ELBERTA

Leader of all Peaches and the greatest commercial variety on the market; 50% of the Peaches planted are Elberta. A beautiful Peach of good quality; not only the best orchard variety but also valuable for planting in the garden. Elberta is hardier in bud than many varieties, therefore a more uniform cropper. It is large, yellow with red cheek, juicy, high flavor. Flesh yellow; freestone. September 15-20.

Peaches can be grown on any soil that will produce the average yield of farm crops and are especially adapted to the lighter soils. If properly cared for the trees are sure to bring in a handsome return on your investment. Our trees are of the best quality and sure to grow.

Dates after each description indicate approximate ripening season in Western New York. Season varies in different sections of the East, but this will give you an approximate idea when to expect the fruit to be ripe.

✓ **BELLE OF GEORGIA.** Large, attractive white-fleshed Peach. Red cheek. Hardy and productive. Freestone. September 3-7.

✓ **CHAMPION.** Large, creamy white, with red cheek. Excellent quality. Good shipper. Hardy and productive. Freestone. September 5-8.

✓ **J. H. HALE.** An extra large Peach, yellow overlaid with crimson. Flesh golden yellow, of delicious flavor. An excellent shipper. A fine commercial variety. Prolific when cross pollenized with some other variety. All of the varieties offered in this catalog are suitable for planting with Hale. Freestone. September 17-21.

✓ **RIO-OSO-GEM.** An outstanding commercial variety. A Hale type Peach, following Elberta 7 to 10 days. Fruit large, brilliant red color. Flesh firm and excellent flavor. Fine for freezing, canning and other uses.

✓ **SULLIVAN ELBERTA.** Midseason, ripening one week before Elberta. Fruits large. Similar to Elberta in all respects except earlier ripening. One of the most extensively planted varieties in the past few years, especially in the Southeast.

✓ **VALIANT.** Large, yellow freestone. Juicy, very good quality. Excellent producer and fine canner. Quite hardy in bud. An introduction from Canada. August 28-September 5.

✓ **VEDETTE.** Ripens a few days before Valiant and 3 weeks before Elberta. Fruit is large, roundish oval, yellow-fleshed, and a freestone. Superior quality and color. August 25-30.

✓ **VETERAN.** Large, round, yellow-fleshed fruit. Freestone. Since it ripens a few days later than Valiant, it makes a desirable sort to follow that variety. Hardier in bud than most varieties. Ideal for cold sections. August 30-September 4.

✓ **JERSEYLAND.** Very early, ripening about 5 weeks before Elberta. Fruits medium sized, round. Skin solid red. Flesh yellow, usually free when ripe, firm. Promising for local marketing and commercial production.

✓ **FAIRHAVEN.** Early midseason, ripening after Golden Jubilee and about 3 weeks before Elberta. Flesh yellow, free. Good for freezing and canning. Promising variety for local marketing and commercial production.

✓ **SUNHIGH.** (New Jersey Introduction.) Good quality. Yellow flesh. Hardy. Ripens just ahead of Goldencrest.

✓ **SUMMERCREST.** (New Jersey Introduction.) Yellow freestone. Ripens just before Elberta.

POLLINATION: With the exception of **J. H. Hale**, all varieties we offer are self-fruitful.

September

Newest Everbearing Raspberry

Now you can plant a Raspberry that will produce an abundant crop in June and a crop of equal size in September. Fruit comes earlier and is larger, and of better quality than any other Raspberry.

Developed and introduced by Prof. George L. Slate of the New York State Experiment Station. This station has long been known for leadership in developing new and successful fruits.

Ripens 2 to 4 weeks ahead of other varieties in the fall. The berries are firm and don't crumble. Order the New Raspberry Today—Our Supply is Definitely Limited.

TRY THE FINE AMBER RASPBERRIES FOR UNUSUAL FLAVOR

AMBER RASPBERRY

Introduced by the New York State Experiment Station. We have now built up stock sufficient to offer this new variety for the first time.

Its beautiful amber color has novelty appeal in the fruit markets and roadside stands. Ripens mid-July, extends the season for home-grown Raspberries.

The berries are as large as any other Raspberry, not crumbly, flavor is sweet and quality of the best.

KELLY'S HEAVY BEARING BUSH BERRIES

BLACK BERRIES

HEDRICK

Here's a new Blackberry introduced by Dr. Geo. L. Slate at the New York Experiment Station. Bound to become the country's leading Blackberry. For that reason, intensive breeding work has been going on at the New York State Experiment Station to improve Blackberries. The berries are somewhat larger than Eldorado, without core and of good quality. Ripens in Western New York during the latter part of July. We would suggest that you try this new variety. For home use and commercial production, there is a need for good Blackberries.

IMPORTANT:

When ordering Gooseberry or Currant plants, it is necessary to have the following information:

1. County and Township where planting is to be made.
2. Approximate distance from nearest stand of White Pine (Five-Needled Pine.)

If you do not receive the Currants and Gooseberries with your order, you will know we are holding them for the permit. If the permit is not granted, refund will be made.

CURRENTS

RED LAKE. The new, giant red Currant. A pleasure to pick. Berries are large, dark red in color, and on long, well filled branches. Very hardy. Ripens over a long season. Long stems make picking easy. **Select, No. 1 plants, 70c each; 3 for \$1.80; 10 for \$5.50; 25 for \$13.25, postpaid.**

WILDER. Unsurpassed commercial sort. Bunches and berries very large, bright, attractive red, of excellent quality. **Strong, 2-yr. bushes, 70c each; 3 for \$1.80; 10 for \$5.50; 25 for \$13.25, postpaid.**

GOOSEBERRIES

Strong Grower . . . Delicious Fruit

DOWNING. A medium size, whitish green Gooseberry of good quality. Strong, upright grower and quite prolific; midseason. July 10 to 15.

POORMAN. Largest fruit of the American Gooseberries. Attractive red. Prefers heavy soil. Bush very vigorous. Highest quality of any Gooseberry.

PIXWELL. A new variety considered the best on the market today. A very heavy bearer with the berries being a light green that turns to pink when fully ripe. Will bear the next year after planting.

Selected, 2-yr. plants, \$1.25 each; 2 for \$2.25, Postpaid

THORNLESS BOYSENBERRY

Giant Size—Delicious Flavor

Canes smooth as velvet. Ripens 10 days to 2 weeks earlier than the common Boysenberry. The thornless strain retains all the good characteristics of its parent, including its rugged, thrifty growth. You will enjoy picking these large, juicy berries without a chance of scratching your hands. **Select plants, 3 for \$1.15; 6 for \$2.05; 10 for \$2.55; 25 for \$4.65, postpaid.**

The Great New INTERLAKEN SEEDLESS GRAPE

**A California Seedless Type That Is Hardy In the North
If You Want a Good Sweet Grape With Meaty Body—
Plant This Approved Variety**

Origin: The new Interlaken Seedless originated at the Agriculture Experiment Station at Geneva, New York, after 30 years of experimenting and close breeding. It was developed from crossing the Thompson Seedless, a California Grape, with our own Ontario and an excellent golden seedless Grape was developed.

Hardiness: It has proven hardy in temperature to 15 degrees and no material harm has been noticed until after temperatures have reached 20 degrees or below.

Quality: The fruit is very sweet and blends with the flavors of both its parents, but is even better than the Thompson Seedless. The flesh is meaty and crisp and of excellent texture. The cluster of berries is of medium size, golden amber color and with a tangy flavor. It ripens a full month before Concord, and due to its hardiness and excellent qualities promises to become one of the leading fresh fruit Grapes here in the North. Ripens about August 30th or earlier. **Selected 2-year vines, \$1.50 each; 2 for \$2.75, postpaid.**

CACO
A Large Red Grape
Excellent Bearer

STEUBEN - Blue Black

A new variety of the New York Experiment Station of Geneva, New York.

✓ CONCORD

**A National Favorite—Bunches Are Large
Color All-Over Blue-Black**

The leading commercial Grape. Color blue-black; berries and bunches large. Hardy, productive, and an excellent shipper. Succeeds over large area. Excellent for Grape juice. September 25 to 30. **75c each; 3 for \$1.95; 10 for \$5.45; 25 for \$11.25; 50 for \$17.50; 100 for \$29.75, postpaid.**

✓ STEUBEN, Blue-Black

**A New Creation of the New York State
Experiment Station**

Never before have we grown a Grape of such exquisite flavor. Melting, tender, sweet with a delicate perfume-like flavor. Grows huge, perfectly formed, long slender clusters. Fruit is of outstanding quality, and the vine very hardy. Produces a full crop after 20 below zero. No spraying necessary—it is absolutely free from rot and mildew in our planting. Ripens a few days before Concord, but keeps well until Christmas. The greatest blue Grape ever grown. Supply limited—order early. **Selected 2-yr. vines, \$1.50 each; 2 for \$2.75, postpaid.**

✓ CACO

Large Sweet Red Grape

A new Grape which is proving to be a great favorite. Berries very large and sweet.

A dandy variety for the home vineyard or Grape trellis. Sept. 28-Oct. 30. **75c each; 3 for \$1.95; 10 for \$5.45; 25 for \$11.25, postpaid.**

A \$3.60 Value—
You Save 65c.

✓ ROMULUS SEEDLESS

A sister to the Interlaken. (They were both developed at the N. Y. State Experiment Station.) We can recommend this new variety to extend your Grape season. Ripens about September 15th or 2 to 3 weeks after Interlaken Seedless.

Flavor, quality, size of berries and clusters very closely resembles the illustration of Interlaken Seedless on page 34.

Select vines, \$1.50 each; 2 for \$2.75, postpaid.

KELLY'S HEAVY GRAPE VINES for Flavor-Size-Yield

New Extra Choice Grapes

✓ SEIBEL 9110 - New French Hybrid

Developed in France, this Grape is a beautiful golden yellow. Because of its excellent dessert qualities and early fruiting habit, we recommend that this variety be added to your planting. It is common for 2-year vines in the nursery to bear fruit. It has crisp texture and its good eating quality makes it a fine variety for roadside sales. Ripens in western New York about Sept. 15th. **2-yr. select vines, \$1.50 each; 2 for \$2.75, postpaid.**

✓ GOLDEN MUSCAT

California Type Grape

Wonderful new golden yellow Grape. For home use and roadside market it is one of the best. Possesses rich golden color and fine Muscat aroma of European Muscat. Vine is vigorous, productive. The clusters are very large and compact. Berries are large, juicy, sweet and tender. Oct. 5-10. **Selected, 2-yr. vines, \$1.00 each; 3 for \$2.75, postpaid.**

✓ VAN BUREN (Black)

Best new, early Grape. Desirable for home and commercial planting. Resembles Concord, but much sweeter and very juicy. Aug. 28-Sept. 2. We highly recommend this variety. Vine is heavy producer and vigorous in growth. **Selected, 2-yr. vines, \$1.00 each; 3 for \$2.85, postpaid.**

Old Favorites

✓ DELAWARE (Red)

Bunches and berries small. Light red. Unusually sweet and delicious. One of the best red varieties. September 20. **75c each; 3 for \$1.95, postpaid.**

✓ FREDONIA (Black) A Fine Sweet Grape

The leading early black Grape. An introduction of the New York State Experiment Station. Plant is a strong, healthy grower. Clusters medium in size. Berries large and juicy. September 5-10. **75c each; 3 for \$1.95, postpaid.**

✓ NIAGARA (White)

The most popular white Grape. Bunches and berries extra large. Vigorous, productive and a good keeper. September 25-30. **75c each; 3 for \$1.95, postpaid.**

✓ PORTLAND (White)

Holds first place as an early white variety. Vine is hardy, healthy and productive. Bunch and berries largest of all white Grapes. September 1-8. **75c each; 3 for \$1.95, postpaid.**

EASY TO CARE FOR—LAST A LIFETIME

Kelly's Grape Vines last a lifetime. Plant our selected plants. Guaranteed to be the finest grown. Easy to grow, adapted for a wide range of soil and climate. Prolific bearers. Fruit ideal for dessert, jelly, jam or juice. Full planting instructions with each order.

STRAWBERRIES

RED RICH Strawberry

Red Rich Bears All Summer

Plant Patent No. 993

Here at last is the Strawberry that's a real sensation. A one-in-a-million chance seedling. Enjoys all the finest qualities known to Strawberry plants. **READ WHAT UNIVERSITY REPORT SAYS:** Quote: "Of the 29 everbearing varieties tested here last season Red Rich is by far the best. I think it is the everbearer for which we have been waiting. (Signed) Herschel L. Boll, Assistant in Pomology, Agriculture Dept., University of Illinois."

BEARS ALL SUMMER—gives you luscious, honey-sweet Strawberries all summer long throughout the fall until winter freeze.

MAMMOTH PLANTS—HUGE BERRIES, we've never seen plants so big and strong. This means disease resistant strength and enormous yields.

PLANT BY NEW METHOD, WONDERFUL YIELDS. Each Red Rich plant shipment carries new "Space System" planting instructions. Follow carefully and get up to a pint per plant the first year and up to a quart per plant the second. Fewer plants needed—25 plants per person is plenty.

TOPS FOR FREEZING. Slice one. They're red clear through. Plenty of natural sugar and a firm texture that holds shape when thawed. Wonderful winter desserts.

EMPIRE—A New Strawberry

A Creation of New York State Experiment Station
(Midseason and Late)

A new variety for both the home garden and roadside stand. Produces huge berries over an unusually long season. Where space is limited for the home garden, Empire will give the most fruit in the least space. Raise for fresh use only. Very attractive berries of excellent quality average extra size. This fruit is firm, holds its appearance well, withstands adverse growing conditions, thus making an excellent shipping berry.

Honeysuckle Hedge

Midget Hedge, Teucrium

CHINESE ELM

An Excellent Windbreak

Can be Trimmed in Height From 5 Feet to 20 Feet.
For Any Size Hedge. Extremely Hardy. Rapid Grower.

This is America's fastest growing hedge, making a good showing in just a few months. It is the first to leaf out in the spring and one of the last to shed in late fall. You can trim to any desired height from 5 to 20 feet, as a hedge or tall screen. The more you trim it the more dense and compact it becomes. We recommend that after planting, you cut off nearly all the top, leaving only 3 to 4 inches above the ground. Plant 8 inches apart. **18 to 24 in., 12 for \$1.25; 25 for \$2.25; 50 for \$4.25; 100 for \$8.25.**

RED LEAF BARBERRY

Very popular for specimen grouping and for edging taller plantings of shrubs or evergreens. Glossy purplish red leaves. Makes a brilliant colorful hedge. Plant 12 to 15 inches apart.

2 Good Hedges

BRIDAL WREATH - Spirea Van Houttei

One of the best known shrubs of America. Exceptionally hardy and will grow in either sun or shade. Attains a natural height of 5-6 ft. and is completely covered with clusters of small white flowers in June. Can be trimmed any time during the summer. Plant 3 feet apart for an informal hedge. **12-18 inches, 10 for \$3.75; 25 for \$8.75; 50 for \$14.95; 100 for \$24.95.**

BUSH HONEYSUCKLE - Lonicera tatarica

Very hardy, growing in the poorest soil. Flowers freely in May and June with fragrant pink flowers, followed by red berries in the fall that are attractive to birds. Rapid growing, attaining a height of 8-10 ft. and is ideal for specimen planting, hedging or screening purposes. **12-18 inches, 10 for \$3.95; 25 for \$8.25; 50 for \$14.95; 100 for \$24.95.**

MIDGET HEDGE - Teucrium Chamaedrys

A low growing hedge suitable for edging or growing in front of a wall. Resembles dwarf Boxwood, holding its leaves 10 months of the year. Grows 10 to 15 inches but can be sheared at any height lower than that. Hardy and thrives in most locations. Should be planted 6 inches apart for a dense hedge. **10 for \$3.95; 25 for \$8.75; 50 for \$14.95; 100 for \$24.95.**

GREEN LEAF BARBERRY THUNBERGI

Best all-purpose hedge of marked excellence because of its bright green foliage, changing to brilliant colors in the fall. Has bright scarlet berries throughout the winter. Dwarf and regular spreading in habit. Grows well in shade, used extensively in landscape work. Very hardy and has never been known to winter-kill. It bears and shears well and makes a dense hedge.

Amur River Privet

AMUR RIVER PRIVET

Extremely Hardy — They
Withstand the Severest Winters

Best for northeastern conditions. Will grow 10 feet in height but may be pruned to any height and sheared to desired form. Branches are upright, foliage oval or oblong; can be made very dense by pruning. Resembling California Privet in growth. Very hardy and almost an evergreen, holding its green leaves almost all winter. Plant 9 to 12 inches apart.

Red Leaf Barberry

Spirea Van Houttei

Barberry Thunbergi

IT'S NEW!

**The Most Sensational
Fruit Of A Decade!**

HOWARD'S MIRACLE PLUM

(Plant Patent No. 721)

The Wonder Plum of the Age

This new fruit marks a new era in the advancement of fine fruits for the table. It has a delicious and tantalizing flavor, is large size, has firm amber flesh, and its red and yellow Maple leaf color places it in a class by itself.

Those fortunate enough to have eaten this fruit, offer various comments as to its flavor. Some say the taste is like Pineapple, others compare the taste to a Peach, Plum and Nectarine combined. Invariably, after tasting the "Howard's Miracle", comes the exclamation: "This fruit is truly a miracle. It is something out of this world." "HOWARD'S MIRACLE" is even more delicious in preserves.

Has a thin skin which is unnoticeable when eating, while the meat is Nectarine-like in quality. The fruit of Howard's Miracle is extraordinarily large, averaging 2½ to 2¾ inches, but the seed is only miniature.

It is beautiful for lawn planting, foliage becomes richly tinted in the fall, similar to a Maple. Very hardy—having been reported by customers to survive as much as twenty degrees below zero in northern Wisconsin without any damage. Being self-fertile, it does not need another tree for pollination.

Howard's Miracle is undoubtedly the most exciting fruit today. You will find that you have never tasted fruit like it. Is it Nectarine? Is it Peach? Is it Plum? Is it Pineapple? Plant one or more of the exceedingly fast growing, quick bearing trees and harvest fruit the second year. It bears through June and July.

	Each	2 for
3-4 ft.	\$2.00	\$3.75
4-5 ft.	2.25	4.25
5-6 ft.	2.50	4.75

An ornamental tree of medium size, foliage persistent, in autumn richly tinted not unlike the leaves of a Maple. Can be grown in a small garden.

MINIATURE ROSES

**Plants Grow
6" - 12" Tall**

These fascinating little plants are true Roses, with tiny thorns, foliage, buds and blooms that are exact mimics of the finest big exhibition Roses. But the full-grown plants of these Miniature Roses are only 6 to 12 inches tall, and the biggest blooms are only about an inch across. They start blooming in May and keep right on all summer. All they ask is good soil, good drainage, a fairly sunny spot and reasonable care. They thrive in the garden, and are as hardy as the big Roses.

★**RED IMP.** Pat. 1032. This new Miniature Rose is a deep, rich crimson that is startling in its brightness. It is an unfading, even color with no light markings. Fully, solidly double, with 45 to 60 petals packed tightly right to the center. Opens very flat. The beautiful buds and blooms are as perfectly formed as the best of the big Roses. \$1.00 each; 3 for \$2.70; 10 for \$8.00, postpaid.

★**PIXIE.** Pat. 408. World's tiniest, fully double white Rose, 40 or more petals neatly arranged into perfectly formed flowers only ¾ inch across. Buds sometimes have a pinkish tinge, which is carried over into the flowers during the cool season and may last until they have fully expanded. At other times will be pure white. Very free in bloom. Dainty foliage. It is hardy as the big Hybrid Teas, starts blooming earlier in spring and continues until fall. \$1.00 each; 3 for \$2.70; 10 for \$8.00, postpaid.

★**BO-PEEP.** Pat. 976. Adorable, deep rose-red buds and densely double, arbutus-pink flowers. Very free in bloom, with many buds together in strong, branching flower sprays. One of the tallest. \$1.00 each; 3 for \$2.70; 10 for \$8.00, postpaid.

★**OAKINGTON RUBY.** Miniature red buds open to double 1-inch flowers. Hardy; free flowering. Fine hedge or border plant. One of the best Miniatures. \$1.00 each; 3 for \$2.50; 10 for \$7.50, postpaid.

Pixie

Red Imp

Bo-Peep

Oakington Ruby

PHILADELPHUS, BELLE ETOILE

Fragrant Star Mock Orange

One of the finest and choicest of the Mock Oranges. Originated in France. Its star-like flowers open in Lilac-like fashion, the center showing a delicate light purplish flush. Its intense and delightful fragrance can be detected over the entire garden. Will grow about 5 feet in height and about 4 feet in diameter, but can be trimmed smaller. We highly recommend this plant to you. **\$1.50 each; 2 for \$2.75.**

ROSA RUGOSA

The rich green foliage of this plant, which ultimately grows 4 to 6 feet, is most attractive. Everblooming in its nature, large pink flowers are produced from June until September. It is unique that the large red fruits are ripening at the same time that the plant is blooming. Very hardy. It is recommended for areas near salt water.

	Each	2 for
12-18 in.	\$1.00	\$1.75
18-24 in.	1.25	2.25

CLIMBING HYDRANGEA

The Choicest of All Vines

(Hydrangea Petiolaris)

This perhaps is the finest and choicest of all the vines. It is woody but clings to brick or wooden walls without support, and also does fine on old trees or stumps. Its foliage is bold, clean and shrub-like, and a rich dark green color. White, fragrant, Hydrangea-like blooms throughout the summer. The effect created is most artistic as well as amazing. Does equally well in shade or sun. In fact, we recommend the Climbing Hydrangea for north, west walls or such places where shade is dense in summer. If you own one of these vines you will have something you will admire all your life. The height can be easily controlled from 10 to 20 feet as desired. **Price, \$3.00 each.**

1956 - Our 76th Year

A Magnificent Lawn Tree that Adds that "Bit of Grandeur" to Every Garden

*The Aristocrat
of Ornamental
and Shade Trees*

CRIMSON KING MAPLE

(Plant Patent No. 735)

You will want to be one of the first to own this new tree. It is a beautiful form of Schwedler Maple, originating in Europe. Like the Schwedler it develops a rounded, compact top of unusual symmetry, but differs in having foliage of deep purple-crimson all through the growing months. Crimson King has been under close observation in this country for 10 years, and in every instance has kept its rich coloring throughout the season. It has been said: "Crimson King is beautiful beyond words." Grows 25-40 ft. tall.

4-5 ft., \$4.95; 5-6 ft., \$5.95.

Evergreens for Beauty

SPREADING PFITZER'S JUNIPER

This evergreen naturally grows in a low, wide spreading habit. It will stand considerable shade and crowding, which makes it a favorite for foundation and informal plantings. If kept untrimmed, will spread 4 to 5 feet. Can be kept low to the ground by trimming. **10-15 in., heavy transplants, \$1.75 each; 2 for \$3.25, postpaid.**

PYRAMIDAL ARBOR-VITAE

On account of its rapid growth, its bright green color, its shapely even pyramidal habit and ease of trimming, this evergreen ranks among the leading ones for the Eastern United States. Will grow 15 feet tall but seldom over 2 feet in diameter. May be freely cut and trimmed and thereby kept within any bounds necessary. **12-18 in., heavy transplants, \$2.00 each; 2 for \$3.90, postpaid.**

PURPLE SPREADING ANDORRA JUNIPER

Low and spreading, seldom reaching more than 15 to 18 inches in height, but will spread out for several feet. Particularly desirable because of the gray-green summer color and the pinkish fall and winter color. Especially desirable for planting in groups or as a border to taller trees or for covering banks. **9-12 in., heavy transplants, \$1.50 each; 2 for \$2.90, postpaid.**

Globe Arbor-Vitae

SPREADING JAPANESE YEW (TAXUS CUSPIDATA)

This evergreen usually grows more wide than tall. Branches out from the bottom with several stems, developing into a bush form. Rich, dark green foliage with numerous crimson berries in the fall. Does well in sunny and northern exposures. Fine for foundation plantings. **12-18 in., heavy transplants, \$1.75 each; 2 for \$3.25, postpaid.**

Spreading Japanese Yew

GLOBE ARBOR-VITAE

A natural globe-shaped evergreen. Has broad fan-shaped leaflets. It is dwarf in its habit of growth, usually not growing over 3 feet tall or 3 feet in diameter. Fine for doorway and foundation planting or for formal designs, tubs and urns. **8-10 in., heavy transplants, \$1.50 each; 2 for \$2.90, postpaid.**

UPRIGHT JAPANESE YEW (TAXUS CAPITATA)

The normal habit of this Yew is a pyramidal form, broad at the base and tapering to the top of the tree. A rapid growing tree, so can be trimmed back at least twice during the summer. **15-24 in. transplants, \$2.50 each; 2 for \$4.75, postpaid.**

HICKS' YEW

TAXUS HICKSI

A narrow, upright Taxus with vertical branches. Can be kept trimmed to a desired shape and height. It has rich, dark, glossy green color, making it very popular. Tree resistant to extremes of heat and drought.

12-18 inch, heavy transplants, \$1.75 each; 2 for \$3.25, postpaid.

Hicks' Yew

Japanese Upright Yew

Almey Flowering Crab
Today's Most Beautiful Flowering Tree

Flowering

ALMEY CRAB

Fiery Crimson Blossoms in Early Spring—Scarlet Fruits in Fall and Winter

An outstanding Flowering Crab that blooms in the spring. The blossoms are dollar-size flowers of rich glistening, fiery crimson. White markings at base of each petal gives effect of a five-sided star. This lovely tree thrives in poor soil and is perfectly hardy in cold sections.

Almey is not a large tree—about 12 to 15 feet—but it is vigorous and attains its mature height quite rapidly. Another outstanding characteristic of Almey is that it blooms young. It thrives well in full sun or partial shade. Recommended also for small gardens.

The spring show is not all. A graceful tree in growth, Almey also produces in profusion small scarlet fruits that are unique in their habit of clinging tenaciously to the branches long after the leaves have dropped, providing another high spot of color long into the winter.

	Each	2 for
3-4 ft.	\$2.50	\$4.75
4-5 ft.	3.25	6.25
5-6 ft.	4.00	7.50

SENSATIONAL MORAINÉ LOCUST

(Plant Pat. No. 836)

An Outstanding Shade Tree of Unusual Character

We are proud to offer this sensational shade tree, because we believe it so perfectly fills the needs of today. For the many new homes which have no shade trees whatever, it will provide good shade quicker than any tree we know of, and is superior in many ways to other fast growing trees.

The Moraine Locust is hardy, drought-resistant and grows successfully on a wide range of soils. It will withstand the same extremes in temperatures as the common Honey Locust, and is long-lived. Because it is sterile, there are no unsightly seed pods to clutter up the lawn, and its non-fruiting habit also makes for better foliage. It is also thornless.

Vase formed in shape, wide spreading when older, like stately old Elm trees. Branches are arching upward and outward, easily reaching over the tops of two story houses, without obstructing view or affecting air circulation. The finely cut foliage allows enough light to filter through to promote excellent growth of lawns, yet provides shade dense enough to discourage growth of crab grass.

These trees are easily transplanted and seem to produce good growth on any kind of soil. Will respond favorably to extra feeding.

Try a planting this spring. Grows to a height of 25 to 40 ft.

	Each
5-6 ft.	\$5.95
6-8 ft.	7.50

Majestic Moraine Locust

The Dogwoods

RED FLOWERING DOGWOOD

(*Cornus florida rubra*)

Grows to a 12-foot tree. Everyone knows this lovely artistic tree. Produces a great profusion of large rose-red flowers in the spring; glossy red berries in the fall. A most adaptable tree; adds greatly to any landscape picture because of its fall fruit, red color and unique branching habit. 18-24 in., \$3.00; 2-3 ft., \$3.75, postpaid.

TREE WISTERIA

No more lovely sight can be imagined than a Tree Wisteria in bloom. The purplish blue flowers completely cover the tree during May, transforming it into a sheer beauty. On the lawn they develop into beautiful specimens, increasing in beauty and dignity each successive season. Can be kept trimmed to a height of 6 to 8 feet. Grafted, sure to bloom. 3-4 ft., \$4.95 each, postpaid.

DOUBLE WHITE FLOWERING DOGWOOD

(*Cornus florida*)

Has all the charm, artistry, and adaptability of the popular White Dogwood, and in addition bears double flowers. Very hardy and heavy flowering. A small tree which grows in shade or sun and in ordinary soils, even in somewhat wet places. Typical bright red berries and red fall foliage. 3-4 ft. trees, \$2.50, postpaid.

See Page 4 for Free Premiums for Ordering Early

COLORFUL LAWN TREES

ELEYI PURPLE LEAF CRAB

The tree is hidden in the spring by masses of wine-red blossoms. An outstanding specimen, with handsome bronze foliage turning to bright red in the fall. Attractive deep red fruits persist into the winter. The fruit makes a brilliant distinctive jelly. Tree grows to about 10 to 12 ft. tall and makes an ideal ornamental lawn tree. 4-5 ft., \$2.50 each; 2 for \$4.75, postpaid.

EUROPEAN MOUNTAIN ASH

Much more satisfactory than the native species, since it fruits more prolifically and has more compact habit. Large, flat clusters of white flowers in the spring. Clusters of flashy, orange-red berries all over the tree in summer and fall. Deep green, clean foliage perfectly implements the graceful, upright habit. Grows to a height of 18 to 25 feet with a spread of 15 feet maximum. 6-8 ft., \$4.95 each; 5-6 ft., \$4.00 each; 4-5 ft., \$3.50 each.

Order by mail—it is an excellent way to buy.

You can depend on first class, ready-to-grow plants—fresh from our big nurseries at Dansville, New York. We always ship at planting time.

WISCONSIN WEEPING WILLOW

There are few trees that can be used to such advantage for cheery winter effects. Grows fast, adapted to a variety of soils and uses. Is very hardy, and beautifully effective near pools, along drives and on lawns. Grows 25 to 30 feet tall.

	Each	3 for	5 for	10 for
4-5 ft.	\$1.50	\$3.50	\$ 6.00	\$ 9.00

6-8 ft.	2.50	6.50	11.00	19.00

RED-FLOWERING CRAB

(*Malus Floribunda*)

This small tree is round-topped with single, carmine buds that change to pink and then white. Very heavy bloomer with small blood-red fruits, which can be used for jells. Will stand severe winters and drought. 15 to 20 feet at maturity. **4-5 ft., \$2.50; 2 for \$4.75, postpaid.**

GOLDEN CHAIN TREE

No picture can do justice to this rare, low growing tree. Its long clusters of pure golden yellow are similar in form to the well known Wisteria, and often reach 18 inches in length, as many as 6 or 8 clusters on a small twig. Does well in either partial shade or full sun. A show plant all season, with its decorative green bark and large, clover-like leaves. **4-5 ft., \$4.75 each.**

PURPLE FRINGE - Smoke Tree

SOMETHING TO RAVE ABOUT

The One and Only Cloud-Like Foliage Tree That Looks Like a Volume of Smoke.
A Worth-While Addition to the Garden.

A tree much admired for its curious fringe or hair-like flowers that cover the whole surface of the plant. Handsome foliage adds its share of beauty. Likes plenty of sunshine and light, well drained soil. Grows to a height of 10 to 12 feet, its spreading habit requires considerable space. Especially desirable as a specimen tree.

Kelly's Finest Flowering Trees - For Lawns

PAUL'S SCARLET HAWTHORN

Lovely small tree, growing about 15 ft. tall, with spreading branches. The leaves are broad, flowers a brilliant rosy red, double, in large clusters and produced in immense quantities. The fruits are scarlet. Well suited for the small yard. **4-5 ft., \$3.50, postpaid.**

KWANZAN FLOWERING CHERRY

Spectacular Flowering Cherries of Washington Tidal Basin, this one superb variety is always the most impressive. Trees bloom a year or two after transplanting. Grows 20-30 ft. tall. Double, bright rose-pink flowers completely clothe the branches in early spring. **3-4 ft., \$3.25, postpaid.**

RIVERS' PURPLE-LEAVED BEECH

One of the most colorful and beautiful of all trees and a mature specimen is one of the most valuable of all sorts. It is easily grown and long-lived. Leaves come out a deep maroon in the spring, turn gradually to a dark maroon-purple in summer, and in fall a rich purple-brown. Shapely in growth, rich in color, it will add that final touch of elegance to your lawn. Be sure to plant this variety as it is known to man to be one of the finest and best trees. **2-3 ft. grafted trees, \$3.50 each, postpaid.**

BECHTEL'S DOUBLE FLOWERING CRAB

Huge, double, light pink flowers hide the branches with rare beauty in the spring. Ideal for smaller lawn. Formal type; broad-symmetrical, pyramidal style. Distinct lobed leaves. **2-3 ft., \$2.00; 3 to 4 ft., \$2.75, postpaid.**

WHITE CLUMP BIRCH

In naturalization, or as a lawn specimen, this lovely, multiple-stemmed tree is most effective. The white bark of its 3 or more trunks adds great charm to the landscape picture. Growth is gracefully upright, with horizontal branches. Reaches a height of 35 feet. **3-4 ft., \$3.00, postpaid.**

TREE HYDRANGEA

Large, pyramidal trusses of pure snow-white blossoms appear in early August. As fall approaches, they change to a luminous pink. At this stage they may be cut for all winter, dry bouquets. Blossoms measure a foot long and 6 to 8 inches wide. A low growing tree, standing not more than 4 to 6 feet in height. **2-3 ft., \$2.50; 3-4 ft., \$3.00, postpaid.**

1956
Our 76th Year

RED JAPANESE MAPLE The Loveliest of All Small Growing Trees

Grows no taller than 8 to 10 feet. Leaves a startling crimson all summer. Makes an excellent specimen for side yard or in formal garden. Has best color when in full sun, but will tolerate moderate shade. Trees moss balled. **1-1½ ft., \$6.50, postpaid.**

CUT LEAF WEeping BIRCH

Graceful, weeping branches, finely cut foliage and shimmering white bark, make this one of the most beautiful trees. Although not particular as to soil, the Cut Leaf Weeping Birch prefers a moist location and a sunny spot. Grows to 35 ft. in height. **4-5 ft., \$3.50, postpaid.**

REDBUD (Judas Tree)

**Very Large Leaves—Graceful
and Semi-Weeping**

Live pink flowers cover every twig and branch, producing a breath-taking display early in the spring. Makes a very graceful 20-ft. tree. Large, healthy, heart-shaped leaves add a tropical cast to the landscape picture. A beautiful specimen even in the smallest yard. **3-4 ft., \$2.00, postpaid.**

Silver Maple

SILVER MAPLE

*A Picturesque Tree That
Is Extremely Hardy*

Most rapid grower of all Maples. A large, spreading tree which, at maturity, has a height from 60 to 70 feet. A cut leaf with a silvery cast, and also a silvery bark. Sap is good for sugar making.

4- 5 ft.	\$2.25
5- 6 ft.	2.75
6- 8 ft.	3.25
8-10 ft.	4.25

*Garden Splendor
In Fine Trees*

Stately PIN OAK

For an artistic, attractive shade tree, it is one of the fastest growing of the Oak family. The foliage is rich green, deeply cut, glossy copper in late fall. Generally disease and insect free. At maturity stands 30 to 40 ft. Grows in a symmetrical pyramidal form.

5-6 ft., \$6.00 each.

LOMBARDY POPLAR

Good for Wind Screens

Tall, fast growing, spire-like tree. Adapted to wide range of soils. Everybody knows the striking appearance of this tall, narrow-growing tree, like a church spire. Ideal for screening, windbreaks and backgrounds. When used for these purposes, plant 5 to 6 feet apart.

*Kelly's Famous
Garden Beautiful*

HOPA CRAB →

The lovely rosy pink blossoms are exquisite—a jewel of the garden—no other tree equals the profusion of bloom. From early spring until freezing weather this tree will be a delight to you. It is hard to imagine anything more beautiful. The foliage is dark green with red cast. Flowers are followed by the small red rosy Apples that be-jewel the tree during the summer, and the small Apples can be used for jellies. The tree is half round in shape, growing to a spread of 15 ft. **4-5 ft. trees, \$2.25 each; 2 for \$4.25, postpaid.**

SCHWEDLER MAPLE

This is a beautiful tree in all seasons. In the spring, the foliage is a reddish purple, followed by a bronzy green color in the summer. It is very attractive in the fall when its foliage is a golden yellow. Recommended for specimen planting in lawns. Symmetrical in growth. Not fast growing. **6-8 ft., \$5.50 each.**

Kelly's Famous NORWAY MAPLE

Best All Around Shade Tree

Recognized as the finest shade tree for generations. Rich indeed is the city whose inhabitants plant Norway Maple as a permanent street tree.

Foliage Dense — Rich in Color

Its dense leaves are a rich green color, and hold on the tree longer in the fall than most Maples, without much change in color.

Good for Specimen Plantings

A good tree for street or lawn specimen plantings, where good form and shade are needed. Reaches a height of 30-50 ft. Is resistant to storm, very clean in habit, and the leaves will withstand smoke, soot and attacks from insects.

Paint Your Garden!

with Kelly's HARDY

CUSHION MUMS

5 of the Best Colors in Our Famous Cushion Mums

After the second year planting, these HARDY MUMS develop into sizes as large as a bushel basket, and each plant is literally covered with many hundreds of lovely flowers which you can buy from us in the five colors listed below.

1—BRONZE CUSHION—A lovely Rembrandt color.

A large round plant if planted alone with hundreds of blossoms on at the same time. Requires little care, and is one of the prettiest of the Cushion Mums.

2—PINK CUSHION—You've never seen such a profusion of colorful blossoms. It's the oldest of the Cushion Mums, but one of the best. Makes a very large plant by early fall, loaded with blossoms, often hiding all the leaves when fully in bloom. It's a sight in early September till late fall.

3—RED CUSHION—A Masterpiece in every flower.

Blossoms are fiery red color that blends in well with the others. It has been known to have 500 blossoms and some buds on five months after set out. Starts to bloom in September and continues until freezing weather.

All are prolific bloomers that make a spectacular picture in any garden. Starting small in the spring, they quickly develop into large, bushy plants.

A Sensational Creation of the Flower Kingdom

One of the most popular garden favorites. Plant these beautiful flowers 2 to 2½ feet apart in well drained soil. They do well in full sun or partial shade. Our Cushion Mums are hardy and will bloom from August up to the time of severe frosts.

4—WHITE CUSHION—You will be proud of every plant.

Pure white blooms. Blossoms freely, like all the other colors. You will like this color to mix with the others.

5—YELLOW CUSHION—Nature's handiwork in a brilliant color.

A bright yellow and blooms earlier than other colors. A thousand blossoms open at one time on a well cared for plant is a common sight. Everyone likes a yellow Mum.

Regal Lily

Speciosum Rubrum

New Fire King

LILIES - 3 Best Garden Varieties

Kelly's Easy To Grow
Gorgeous Colored Lilies

REGAL LILY

One of the hardiest Lilies in cultivation. Stems grow 4 to 5 feet high on which are produced gorgeous large white flowers, the center of which is flushed with yellow, shading to brown on the "ribs." The almost transparent petals have a delightful pearly tint. The Regal Lily when rightly established will produce from 15 to 20 flowers each year. **2 for \$1.00; 4 for \$1.75; 8 for \$3.45, postpaid.**

A TRUE PINK LILY

(*Lilium speciosum rubrum*)

Wonderfully beautiful and perfectly hardy. Heads of 10 or more delicately fragrant, rose-pink blooms daintily dotted with crimson, on 3 to 4-foot plants. Excellent in the garden and for bouquets or corsages. Blooms in August. **2 for \$1.00; 4 for \$1.75; 8 for \$3.45, postpaid.**

NEW FIRE KING LILY

Space does not permit showing full size of this appealing Orange Type Lily, the most beautiful true fiery red Lily we have ever seen. A tremendous number of large out-facing blooms flecked with black dots open over a period of 3 weeks during June and July. A clump of Fire King in bloom can be seen for a great distance. Plants with somewhat flattened wiry stems grow 3 to 4 ft. 60-80 blooms per stem is not uncommon on established plants. A Dutch gardener noticed this new Lily in his bulb beds and named it Fire King to describe its color. Blooming size bulbs. **\$1.25 each; 2 for \$2.25, postpaid.**

Kelly's Easy To Grow Lilies Are Exquisite in Their Graceful Growing Habits and Magnificent Colors
Plant in Groups of 3 or More for Effective Results

TWO GOOD HOUSE PLANTS

AMERICAN WONDER LEMON

A New House Plant You'll Surely Want

Covered with waxy white flowers. Several times each year, this attractive HOUSE PLANT will produce Lemons, sometimes weighing as much as a pound. Known as Ponderosa Lemon, this plant is different than any you have ever grown. **2-yr. fruiting size, \$1.65 each; 2 for \$3.00, postpaid.**

House Plant Special

1 Fruiting Size Lemon

1 Flowering Size Gardenia

**\$2.75
Postpaid**

GARDENIA

The thick glossy foliage surrounding the creamy white blossoms of the familiar Gardenia make this dwarf shrub a prize addition to your terrace or sun room. Grow it in pots and enjoy its exotic beauty all year, inside or out. Unequaled for its rich perfume. Very strong plants. **2-yr. flowering size, \$1.25 each; 2 for \$2.25, postpaid.**

Beautify your indoors with these exotic house plants—Gardenia and American Lemon Plant are two special Kelly offerings for 1956.

BLEEDING HEART

(Dicentra)

A Favorite Perennial Plant

A well known favorite to all. May be used as borders, specimen plants or indoor growing. Produce pink heart-shaped flowers during May, June and July. Will do well in any well drained soil but prefers a sunny location to shade. **\$1.00 each; 2 for \$1.75.**

✓ HARDY ORANGE

(Citrus Trifoliata)

Here is a relative of your breakfast Orange, that makes a decorative small tree here in the North. Has strong, spiny branches and grows 12 to 15 feet tall. Bears fragrant, white flowers in early spring before the leaves appear, followed by aromatic, rough, yellow fruit like small oranges. Perfectly hardy even in 18 degrees below zero weather, making an ornamental tree or hedge plant. Fruit very acid, inedible, but fragrant. **12-15 in. plants, \$1.65 each, postpaid.**

CITRUS PLANT SPECIAL

- 1 American Wonder Lemon
- 1 Hardy Orange
- 2 for \$2.95, Postpaid

Kelly's Mammoth Hardy Garden

PEONIES

Once planted they will develop into large plants, blossoming each year with hundreds of blossoms.

The gorgeous Peony is one of the outstanding flowers for the garden, and rivals the Rose in popularity. Being extremely hardy, it grows and thrives in any part of the country, requiring the least care, and is free from pests and diseases. There are very few perennials as permanent and dependable as the Peony. The following prices are for strong, 3- to 5-eye plants, which will give you pleasing results.

\$1.00 each; 3 for \$2.70; 6 for \$5.40, postpaid.

FELIX CROUSSE. The best red for gardens. Bright ruby-red color.

EDULIS SUPERBA. Dark rose-pink.

VENUS. Beautiful soft pink.

FESTIVA MAXIMA. White with crimson flecks.

QUEEN VICTORIA. Pure white.

OFFICINALIS RUBRA

The earliest of all Peonies. Double red, free blooming. It is the old-fashioned kind one sees in so many gardens in early spring. Very scarce. **\$1.25 each, postpaid.**

Condesa de Sastago

McGredy's Ivory

McGredy's Yellow

Crimson Glory

FLORIBUNDA ROSES

They Bloom from June 'til Frost

GOLDILOCKS

(Plant Pat. No. 672)

A true golden Floribunda. Blooms last a long time, as fresh new buds keep replenishing the over-all effect of a golden yellow mass. The buds in each of the many clusters are ovoid in shape, resembling miniature Hybrid Teas in form, and a rich golden yellow in color. Plants have a dense, well balanced habit of growth. **Each \$1.50; 3 for \$3.90; 12 for \$15.60, postpaid.**

FASHION

(Plant Pat. No. 789)

This is truly the greatest Floribunda ever created. Hybrid-Tea-shaped blooms are a brilliant luminous coral overlaid with gold. Blooms have 20 to 25 petals and are borne singly and in clusters all season long. Excellent for cut flowers. Medium sized foliage is dark green and hangs on well. **Each \$2.00; 3 for \$5.25; 12 for \$21.00, postpaid.**

SUMMER SNOW

(Plant Pat. No. 416)

One of the most popular Floribundas for hedges. Starts to blossom early in the season with a magnificent display of 2-inch blooms—12 to 15 on each cluster. Then throughout the season new flowers develop as fast as the old ones fade, providing a continuous display for mass plantings or beds. **Each \$1.50; 3 for \$3.90; 12 for \$15.60, postpaid.**

JIMINY CRICKET

(Plant Pat. No. 1346)

Top 1955 All-America Winner!

Jiminy Cricket was the only Floribunda to win the 1955 All-America Selections Award. This new Floribunda has masses of tangerine-red buds opening to unusual, sharp coral-orange or vermilion blooms that finish a lovely pink-coral shade. The thrifty bush has attractive glossy bronze leaves. The upright growth of the bush makes Jiminy Cricket ideal for hedges and for massing, and the continuous bloom makes it a very interesting garden plant. Pleasing planted alone or with other Floribundas. **\$2.25 each; 3 for \$6.00; 12 for \$24.00, postpaid.**

FLORIBUNDA COLLECTION

1 Each of Roses Shown All 6 for Only \$9.40

Postpaid

RED PINOCCHIO

(Plant Pat No. 812)

Color is a rich dancing carmine, which deepens and acquires a velvety cast as it fully opens. The 3½-inch flowers are borne in large, long-lasting, unfading clusters with individual blooms scattered between the mass flowering. Buds are attractive deep satiny carmine on the outside of the petals and a bright carmine on the inside. **Each \$1.50; 3 for \$3.90; 12 for \$15.60, postpaid.**

VOGUE

(Plant Pat No. 926)

The rich cherry-coral color is only one of its outstanding features. Slow opening buds form perfect blooms that are high centered and reach from 3 to 4 inches across. Flowers are always in evidence in medium and large clusters all season long. **Each \$2.00; 3 for \$5.25; 12 for \$21.00, postpaid.**

Floribunda Roses

Circus Outstanding All-America Floribunda Award Winner for 1956

This unique addition to the All-America Selections is a multi-colored variety and is the first of this particular type to be selected for an award. The ever-changing colors of Circus vary from rich yellow and red in the bud to orange-buff, flushed with appleblossom-pink, and usually end with a gay flourish of red as the flower opens fully. Circus adds charm in other ways besides color. The bud is beautifully formed, and the many-petaled, high-centered flower opens very gracefully. The plant is full and well rounded, low to medium in height, and perfectly suited for a variety of garden uses. The large, glossy foliage gives the plant a well-tailored appearance even between blooming periods. The gay, bright colors, changing and shading with infinite variety, suggest the excitement and activity of the "Big Top." (Plant Pat. No. 1382.)

\$2.50 each; 3 for \$6.60; 12 for \$26.40, postpaid.

PINOCCHIO

(Plant Pat. No. 484)

Great clusters of gracefully pointed buds of rich salmon, flushed with gold at the base, open up to long-lasting blooms like Miniature Hybrid Teas. As the flowers open, they change to soft lucid pink and shade into deeper pink at the edges. The cool pink masses are refreshing in mass planting and edgings for paths, drives, beds and borders. **Each \$1.50; 3 for \$3.90; 12 for \$15.60, postpaid.**

Pinocchio

Circus

HEAVY FLOWERING Climbing Roses

DOUBLOONS. Its magnificent flowers are borne in great profusion for a long period. A beautiful yellow Climbing Rose. The husky, hardy canes grow as much as 12 ft. in a season. A hardy and vigorous climber. **\$1.50 each; 3 for \$3.90, postpaid.**

WHITE DAWN. Hardy, everblooming. Flowers are double, snow-white, fragrant and produced constantly from late spring to frost. Just as hardy and dependable as its parent New Dawn. **\$1.50 each; 3 for \$3.90, postpaid.**

BLAZE. (Red). (Plant Pat. No. 10.) Grows in true Pillar form. Blooms early, followed by repeat blooms throughout the summer and fall seasons. Plants hardy, bright green foliage and sturdy canes. Color is intermediate scarlet and does not fade readily. **\$1.35 each; 3 for \$3.85, postpaid.**

Blaze Climber

New Dawn

NEW DAWN. (Pink). Perfect Hybrid Tea-like blooms all season of apple-blossom-pink, and a delicate appealing old rose fragrance. Superb for use in bouquets and arrangements. Fine long stems. **\$1.35 each; 3 for \$3.85; 6 for \$7.25, postpaid.**

CLIMBING PEACE. (Plant Pat. No. 932.) This new climbing sport has the same fine foliage and strong stems and perfectly formed flowers as the ever popular Hybrid Tea. Ovoid bud is deep yellow with the edges of the petals picoteed cerise. Slowly opens to a glorious 5-inch bloom with shades of canary-yellow, pale gold, cream, pearly white and apple blossom. **\$2.50 each; 3 for \$6.60, postpaid.**

TIFFANY

Long, Pointed Buds
(Plant Pat. No. 1304)

This is a beautiful phlox-pink Hybrid Tea, producing blooms of outstanding quality. Long, pointed buds are deep pink with golden yellow shading at base of petals. The flowers have exceptional lasting qualities and are produced singly on long stems. It is noted for its outstanding fragrance. Upright, very vigorous growth and beautiful dark green foliage. **Each \$3.00; 3 for \$7.95; 12 for \$21.80, postpaid.**

9 Top Choice

NEW YORKER

The Best of All Time
(Plant Pat. No. 823)

The best red Rose of all time. Buds of perfect form and texture open slowly to 6-inch blooms of resplendent scarlet with dark overtones of a rich velvety hue on each of the beautiful, well shaped petals. Bush is hardy and free blooming all season long. **Each \$2.00; 3 for \$5.25; 12 for \$21.00, postpaid.**

Eclipse

ECLIPSE

Slim Tapering Bud
(Plant Pat. No. 172)

Streamlined and modern . . . these slim tapering buds set a mark of grace and daintiness, often exceeding 2 inches in length. The best all-purpose, brilliant golden yellow Rose in all climates. Plants are vigorous, producing abundant bloom. **Each \$1.35; 3 for \$3.45; 12 for \$13.80, postpaid.**

CRIMSON GLORY

Beautifully Formed Blossoms
(Plant Pat. No. 105)

One of the ten most popular Roses in America. So beautiful and so dependable that it deserves a place in every Rose garden. Beautifully formed blooms of deep, vivid crimson, held proudly on vigorous bushes. So sweet and refreshing that you can't get enough of it. Voted by far the most fragrant Rose by the American Rose Society. **Each \$1.35; 3 for \$3.45; 12 for \$13.80, postpaid.**

QUEEN ELIZABETH

1955 Winner
The Grandiflora Rose
(Plant Pat. No. 1259)

The unusually clear, glowing blooms are a subtle blending of soft carmine-rose and dawn-pink, with deep green foliage. The first of a new class, named "Grandiflora", for its abundance of bloom combined with the qualities of the Hybrid Tea. **Each \$3.00; 3 for \$7.95; 12 for \$31.80, postpaid.**

Crimson
Glory

Queen
Elizabeth

All-America Roses

MOJAVE (Plant Pat. No. 1176)
All-America Award Winner — Lovely Apricot-Orange

The richly colored bud is long and slender, a glowing radiant orange, highlighted with other warm tints of nasturtium-red, scarlet and vermilion. The large double flowers have about 25 petals and are pleasantly fragrant. Nearly every bloom is borne singly on a long, straight stem. **Each \$2.75; 3 for \$7.20; 12 for \$28.80, postpaid.**

TREE ROSES

Truly the aristocrat in the garden. Breath-taking loveliness that grows on straight stems from 3 to 4 ft. high. An umbrella of color.

Our clients will welcome these Tree Roses as a favored addition in the garden. Choice of red, pink, yellow, and two-tone. **\$5.50 each; 2 for \$10.00, postpaid.**

CHRYSLER IMPERIAL

All-America Award Winner — Very Popular
(Plant Pat. No. 1167)

Has vivid, rich tones of crimson-red in the broad open petals, heightened by darker overtones of glowing oxblood-red, and the gem-like lustre of garnet in the folds. Retain their sparkling beauty throughout the life of the large beautifully formed flowers. Long tapering buds have beauty of maroon-red velvet. Bush compact and well balanced. **\$3.00 each; 3 for \$7.95; 12 for \$31.80, postpaid.**

PEACE (Plant Pat. No. 591)

Petals Edged With Delicate Pink—5-Inch Flowers

All-America Selection. The bud is rich golden yellow with pink markings. As flowers open, the pink seems to deepen until, as they come to their full high-crowned glory, the golden color fades first to attractive ivory, then to alabaster-white and the pink blush spreads and deepens along the edge of each petal. Plants produce many flowers at once and they can be seen in all stages. The whole effect is of several different Roses on one plant. **\$2.50 each; 3 for \$6.60; 12 for \$26.40, postpaid.**

CHARLOTTE ARMSTRONG

A Double Rose That Lasts Long

(Plant Pat. No. 455)

Blood-red buds and magnificent cerise flowers on long stems throughout the season. A double Rose that opens slowly and lasts well in the garden. **Each \$2.25; 3 for \$6.00; 12 for \$24.00, postpaid.**

Begonias In A Variety of Colors

Magnificent Tuberous Rooted **BEGONIAS**

Most Beautiful in Partial Sun and Shady Places

These selected imported **Belgium Begonias** are supplied in a range of many colors. Camellia-like blooms from early summer till frost; they are not only a fine outdoor plant, but do equally as well indoors.

This thrilling development of the lovely Begonia is unusual in color and shape. The Camellia type varieties look similar to a Rose—are low growing with large waxy flowers. They grow from bulbs.

We offer them in eight colors: Crimson, Scarlet, Pink, Orange,

White, Yellow, Copper, Salmon. Recommended for northern exposures.

1¼ to 1½ inch, 6 for \$1.00; 12 for \$1.85, post-paid.

ROSA MULTIFLORA THE LIVING FENCE

**Controls Erosion • Provides Wild Life Refuge
Adds Beauty to the Landscape**

Facts About the Rosa Multiflora and Its Growth

1. Can be planted 1 foot apart. Its thorns will keep children and animals of all kinds in bounds.
2. Produces dense growth—white blossoms in June—red berries in late summer and fall.
3. Extremely hardy—does well in most all soils.
4. Extensive pruning during the growing season required to keep the hedge small.
5. Grows 8 feet or more in height and 6 to 8 feet in width if not kept trimmed.
6. The red berries will attract birds of all kinds, including pheasants and grouse.
7. Grows 2 to 3 feet in one season.
8. Ideal as a ground cover on steep banks and slopes.
9. Plant just as you would any other shrub.
10. Requires no special care. Not subject to any serious disease or insect attacks.

For a good thick hedge, the plants should be trimmed back to 6 or 8 inches to promote thick growth. You can, therefore, see there is no advantage in planting larger size plants than we offer.

CREEPING GROUND COVER PLANTS - They creep and climb

VINCA MINOR

(Periwinkle)

A trailing evergreen plant, used for carpeting the ground under shrubs or trees or on graves, or where it is too shady for grass or other plants. One of the best ground covers. Glossy foliage stays green summer and winter. Has a profusion of bright blue flowers in early summer. Excellent for edging and borders. Add to its beauty by interplanting of Daffodils or other bulbs which do well planted in this manner. Plants should be set four inches apart.

1956 - Our 76th Year

Hall's Honeysuckle Vine

White and gold trumpet flowers are very fragrant and remain during the entire summer. Attracts bees and humming birds. The foliage remains green in winter with some protection. Excellent cover for steep banks. Will climb on trellis or tree. Fruit is yellow; very showy in winter against green leaves. Often grows to a length of 10 to 15 feet. Plant about 3 ft. apart in staggered rows for ground cover. **75c each; 3 for \$2.10; 10 for \$6.50; 25 for \$14.95; 50 for \$24.95; 100 for \$45.00, postpaid.**

PACHYSANDRA TERMINALIS

(Japanese Spurge)

EVERGREEN GROUND COVER

The most popular of evergreen ground covers. It spreads rapidly, giving a finished look to an underplanting. Since it thrives in the shade, it is especially useful under dense shade trees where grass will not survive. Also good for steep bank where mowing is difficult. Very useful as a combined ground cover and root protector when planted under Rhododendrons, Azaleas, and Laurels. Pachysandra puts the finishing touch to a foundation planting. Plant four or more to one square foot. **50 for \$4.50; 100 for \$8.00; 250 for \$17.50; 500 for \$32.50; 1000 for \$59.95, postpaid.**

GLADIOLUS

Our Gladiolus bulbs are guaranteed to bloom and please you in every way. We offer a large size bulb that will measure 1¼ to 1½ inches across. Plant 4 to 6 inches deep and 3 to 6 inches apart in a row. Be sure to give them plenty of water before and during the blooming season. Great care is taken in selecting the varieties and we list only the better, finer kinds.

PERENNIALS

The Best Hardy Flowering Plants

Perennials Live On For Many Years
They Are the Nation's Favorite Flowers

PAINTED DAISIES

(Pyrethrum)

Robinson's Hybrids
Colorful, Daisy-like flowers that are free blooming — excellent when planted 3 or more in a group. Grows 24 inches high. Colors range from rose to light pink. **60c each; 3 for \$1.65; 10 for \$5.00. Postpaid.**

CREeping PHLOX

(Phlox Subulata)

Height 6 inches
Greets the early spring with brilliant mass coloring
A creeping or dwarf variety covered with a sheet of bloom in April and May, lasting several weeks. Only about 4 inches high. Fine for rock garden or on banks. Colors: Pink, Blue or White. **60c each; 3 for \$1.65; 10 for \$5.00, postpaid.**

DOUBLE HOLLYHOCK

Grows 4-6 inches high

Not to be confused with the old fashioned single varieties, this "newer" double flowering creation blooms very double in a large range of colors. Excellent for accent, to hide walls or unsightly buildings. Colors: Pink, Red, White, Yellow. **60c each; 3 for \$1.65; 10 for \$5.00, postpaid.**

AQUILEGIA

(Columbine)

Mrs. Scott Elliott's Hybrids

A graceful plant in many colors. The long-pointed spurs are characteristic of this unusual "wonder of the garden." Mixed colors. **60c each; 3 for \$1.65; 10 for \$5.00, postpaid.**

These Perennials Bring You Lots
of Color and Beauty at Low Cost

BALLOON FLOWER

(Platycodon)

Very hardy. Bell-shaped baby-blue colored flowers all summer long. Ultimate height 24 inches. **60c each; 3 for \$1.65; 10 for \$5.00, postpaid.**

DOUBLE COREOPSIS

For mass plantings this double flowering Coreopsis is also used extensively for bouquets. Blooms from June to frost and grows 3-4 feet high. **60c each; 3 for \$1.65; 10 for \$5.00, postpaid.**

DELPHINIUMS

**Pacific Strain
Round Table**

Grows 3 feet and taller. Exquisite in charm and grace . . . they can be used for accent . . . as the stately spires stand erect on the stems. The colors range from light lavender and shades of blue, inner florets are often a different color giving a multi-color effect. **Price for selected plants: 75c each; 3 for \$1.65; 10 for \$5.00, ppd.**

EVERGREEN SHRUBS

From Holland

AZALEA MOLLIS

Their flowers are lovely and add so much to any planting. We have imported these from Holland. Large blossoms, blooming in early spring. Fine bushy plants, about a foot tall. They prefer part shade, and do best in a soil mixed half and half with peat moss. The roots are very close to the surface, so a peat moss mulch should be kept around the plants after setting out. Grows to 3 ft. Keep well watered. We offer them in the following colors:

Red, Orange, Yellow, \$2.50 each; 2 for \$4.75, postpaid.

AZALEA MOLLIS SPECIAL COLLECTION

**1 Each of 3 Colors Listed,
\$6.50, Postpaid**

Azalea Mollis

ILEX CRENATA CONVEXA

A small grower, growing four feet high and three feet across. The leaves are glossy and grow so thick that you cannot see the twigs. It is very hardy and will grow either in alkaline or acid soil, in full sun or shade. For a hedge, plant one and one-half feet apart. An evergreen that holds its leaves all winter. This blends well with other evergreens or relieves the bareness of deciduous shrubs when they have no leaves. **12-15 in., \$1.75 each; 2 for \$3.00. 15-18 in., \$2.00 each; 2 for \$3.50.**

RHODODENDRONS

For Supreme Landscaping Effects

You'll be surprised at the growing speed of these Young Aristocrat Rhododendrons. They are small—they soon develop into fine, bushy, evergreen shrubs. You save money: you buy as low as 75c each in quantity. Quickly they grow into fine, bushy specimens, often valued at \$5.00 to \$10.00 each.

RHODODENDRON CATAWBIENSE

Grows 3-5 ft. tall. Leaves smaller than Maximum. Color of flower varies in shades of pink and rose. Grows in full sun but does best in partial or full shade.
